MANAGING DIRECTOR'S COMMENTARY ON FINANCIAL RESULTS

UNAUDITED RESULTS FOR THE 2nd QUARTER 2022

Economic And Business Environment

The Jamaican economy grew by 6.4% during the first quarter of 2022 when compared to the same quarter of 2021. This was the result of increases in both the Services and Goods Producing Industries of 9.0% and 0.5%, respectively. This was the result of 8.9% and 0.4% increase in the Services and Goods Producing Industries, respectively. Ideal climatic conditions and the relaxation of COVID-19 containment measures benefited to the economic performance during the period, in addition, the repeal of the Disaster Risk Management Order had a positive effect on economic activity. However, total value added decreased by 1.2% compared to the fourth quarter of 2021. Comparing the fiscal year 2021/2022 to the fiscal year 2020/2021, the economy expanded by 8.2%, showing the increase in economic activity caused by the relaxation of COVID-19 regulations.

The inflation rate for May 2022 was 0.3%. The upward movement was primarily attributable to a 7.7% increase in the index for the 'Restaurants and Accommodation Services' division due to higher prices for items within the class 'Restaurants, cafes and the like.' Also contributing to the rise is the index of the heaviest weighted division 'Food and Non-Alcoholic Beverage. As of May 2022, the point-to-point inflation rate was 10.9%, while the fiscal year-to-date inflation rate was 0.3%.

The exchange rate since the start of 2022 appreciated by 2.28% or J\$3.53 to J\$151.56 as at June 30, 2022, while the movement year on year reflects a devaluation of 2.05% from J\$148.52 as of June 30, 2021. For the period January to June 2022, the JSE Main Market Index reflected a decline of 11,970 points or 3.0% from 396,155.60 to 384,185.82 points. The JSE Junior Market Index advanced, as it ended June 2022 at 4,349.44 points compared to 3,440.91 points at the start of the year. Jamaica's stock market rebounded in 2021 and continues on the same upward trajectory in 2022 which represents a significant improvement over the same period in 2020. This was based on the recovery in the Jamaican economy and the normalization of business activity, which portended well for corporate earnings and improved investor sentiment.

Business Objective

MJE is an investment company whose objective is to achieve long term capital appreciation, while preserving capital, by investing in public equity securities in Jamaica ("Jamaican equities"). The company employs a value - based approach to identifying and investing in high quality public businesses. This approach is designed to compound book value per share over the long term. While the company will seek attractive risk-adjusted returns, it will at all times seek downside protection and attempt to minimize loss of capital.

FINANCIAL HIGHLIGHTS

Performance Overview

The local financial landscape continues to show evidence of recovery leading into the second quarter as local corporates earnings moved in a positive trajectory. Conversely, geopolitical events, rising consumer prices and higher interest rates have slowed global economic recovery and has introduced heightened levels of uncertainty for the global markets.

MJE recorded continued improvements in the performance of stocks in its portfolio for the three months April to June 2022. The Company reported net profit of US\$34.6 million for the quarter ending June 30, 2022, representing an increase of US\$18.2 million or 111% when compared to the net profit of US\$16.4 million in the prior year. This performance mainly resulted from increased net gains on investments in associates of US\$18.7 million, net unrealized gains on local equites higher by US\$657K and dividend income growth of approximately US\$593K when compared to the same period in 2021. Total operating expenses for the quarter ended June 30, 2022 increased by US\$1.4 million to US\$1.7 million when compared to the corresponding period in the prior year. This resulted in an earnings per share (EPS) of US\$0.029 (2021: (EPS) US\$0.014).

MAYBERRY JAMAICAN

Financial Results

For The Second Quarter Ended June 30, 2022 (Unaudited)

(Expressed in \$US unless otherwise indicated)

Total assets as at June 30, 2022 were valued at US\$168.7 million. This represents a 49% increase from the US\$113.3 million reported as at June 30, 2021. The US\$55.4 million increase was mainly attributable to a US\$69.7 million increase in investments in associates attributable primarily to capital appreciation on the investments. This was offset by a year over year US\$14 million decline in investment securities.

Total liabilities amounted to US\$26.6 million as at June 30, 2022, an increase of US\$12.9 million compared to the corresponding period in 2021, driven mainly by an increase in funding from debt for investment purchases.

SHAREHOLDERS' EQUITY

Mayberry Jamaican Equities Limited's capital base continues to be strong closing the quarter with US\$142.1 million for shareholders' equity. This represents an increase of US\$42.5 million when compared to Q2 2021. This was attributable primarily to an increase in retained earnings for the 12-month period by US\$51.6 million. This was however, offset by year over year decreases in total fair value reserves of US\$8.8 million due primarily to disposals of some investments carried at fair value through other comprehensive income.

Mayberry Jamaican Equities Limited takes this opportunity to thank all our shareholders, the Board of Directors and support teams for your continued support.

Notes to the Interim Financial Statements

As at June 30, 2022

1. Identification and Principal Activities

Mayberry Jamaican Equities Limited (the Company) is a public limited liability company which is listed on the Jamaica Stock Exchange. It is incorporated in St. Lucia under the International Business Companies Act and its registered office is located at Bourbon House, Bourbon Street, Castries, St. Lucia. On January 5, 2018, the Company changed its name from Mayberry West Indies Limited to Mayberry Jamaican Equities Limited under the International Business Companies Act, Cap 12.14.

The Company is an investment company whose objective is to achieve long term capital appreciation, while preserving capital, by investing in and trading public equity securities in Jamaica ("Jamaican equities").

2. Basis of preparation

These interim condensed financial statements (interim financial statements) have been prepared in accordance with IAS 34 Interim Financial Reporting. These interim financial statements should be read in conjunction with the Company's last annual financial statements as at and for the year ended December 31, 2021 ('last financial statements') which have been prepared in accordance with International Financial Reporting Standards (IFRS) and the Jamaican Companies Act. These financial statements are presented in Jamaican dollars unless otherwise indicated. This report is supplemental to the United States dollar Interim Report and is intended to provide additional information in the local currency of the listed stock to enhance analysis by users.

3. Significant accounting policies

The accounting policies applied in these interim financial statements are the same as those applied in the Company's financial statements as at and for the year ended December 31, 2021 which was prepared in accordance with International Financial Reporting Standards (IFRS).

During 2021, the company made accounting policy changes which were effected in the 2021 audited financial results. The material changes include the reclassification of four portfolio investments to investments in associates based on the material proportion of ordinary shares held in in the entities as well as the assessment that the companies though not controlled by MJE, may be subject to significant influence by it.

Notes to the Interim Financial Statements

As at June 30, 2022

The company also elected the IAS 28 exemption from applying the equity method of accounting to measure its investments in associates and instead to measure them at fair value through profit and loss (FVTPL) in accordance with IFRS 9. This had the effect of reclassifying one of these associates which was previously measured at fair value through other comprehensive income (FVTOCI) to FVTPL, and the unrealized losses and gains for this investment in prior years being reclassified to the profit and loss account from fair value reserves in equity.

The interim financial results for 2021 have been restated to conform with the current year presentation of the financial results. Please refer to notes 2, 3 and 24 to the audited financial statements for the year ended December 31, 2021 for further details on the changes to the company's accounting policies and financial statement restatements.

4. Segment reporting

The Board of directors considers the Company to have a single operating segment. The Board of Directors' asset allocation decisions are based on a single, integrated investment strategy and the Company's performance is evaluated on an overall basis which is as per the primary financial statements of the Company.

5. COVID-19 Impact

The World Health Organisation (WHO) declared the novel coronavirus, COVID-19 to be a global pandemic on March 11, 2020. The pandemic and the measures to control negatively affected economic activity and business operations worldwide. This caused a higher level of uncertainty, which adversely affected financial markets and business confidence. Management has assessed that this has adversely affected the Company through a decline in share prices and cessation or reduction of dividend payments by some companies.

As operating restrictions in some industries and jurisdictions have been gradually lifted in 2021 and in 2022, Management has seen a recovery in asset prices, closer to pre-pandemic levels. This has resulted in significant fair value gains being recorded, as well as improved year-over-year dividends received for the year ended December 31, 2021. This trend has continued into

Notes to the Interim Financial Statements

As at June 30, 2022

financial year 2022 and the government's lifting off all COVID – 19 protocols under the Disaster Risk Management Act (DRMA) effective March 18, 2022, augurs well for further recovery of economic activity and company performance.

Notwithstanding the improvements noted above, Management recognises that market prices are subject to a higher degree of estimation and uncertainty. Consequently, there is an expectation that the volatility caused by the pandemic will continue in 2022.
