Management noted, "Jamaica Operations reported a segment result of \$1.7 billion which was \$130 million or 7% below last year's segment result. The reduction was mainly driven by increased pressure from high levels of imports, affecting baby chick sales to our small farmers. Total revenue for our Jamaica Operations showed an increase of 5% over the corresponding guarter, which was mainly driven by poultry sales." Additionally, "our US Operations reported a strong segment result of \$1.2 billion for the first quarter, which was 44% above last year's result. We did have a 3% decline in total revenue due primarily to falling prices in most of our product lines. However, a 56% year over year increase in poultry volumes assisted in offsetting the negative market pressures. Our South Carolina plant which produces the Best Dressed Chicken line of products has gained impressive market acceptance in the United States."
