## MANAGING DIRECTOR'S COMMENTARY ON FINANCIAL RESULTS

### **UNAUDITED RESULTS FOR THE TWELVE MONTHS ENDED DECEMBER 31, 2023**

### **Economic And Business Environment**

Jamaica's GDP rose 2.1% in Q3 2023 compared to Q3 2022. The Services and Goods Producing Industries each grew 2.1%. Total value added, seasonally unadjusted, was \$195.86 billion. In comparison to the second quarter of 2023, the total value added at constant prices increased by 1.2%. This growth was influenced by the performance of both Services (+0.7%) and Goods Producing (+2.6%) Industries.

In November 2023, the inflation rate was 1.6%. The increase was primarily due to a 9.9% rise in the index for the 'Transport' division, owing to an increase of 19.0% in route taxi and hackney carriage fares. Other contributors to the increase were a 1.0% rise in the index for the 'Food and Non-Alcoholic Beverages' division due mainly to increased prices for bread, chicken, and agricultural produce such as tomato, carrot and green banana and a 0.5% increase in the index for the 'Housing, Water, Electricity, Gas and Other Fuels' division, owing to higher electricity, water, and sewage rates. The point-to-point inflation rate as at November 2023 was 6.3% while the fiscal rate to date was 6.7%.

The exchange rate since the start of 2023 depreciated by 1.29% or J\$1.99 to J\$155.94 as at December 29, 2023. The JSE Main Market Index closed the year ending December 29, 2023 at 325,699.79 points, reflecting a decline of 30,196.85 points or 8.48% relative to 355,896.64 points as at December 30, 2022. Additionally, the JSE Junior Market Index closed the year 2023 at 3,848.33 points, declining by 138.11 points or 3.46% relative to 3,986.44 points at the end of December 2022.

## **FINANCIAL HIGHLIGHTS**

### **Performance Overview**

Mayberry Jamaican Equities Limited recorded a net loss of US\$15.9 million for the 12 months ended December 31, 2023, representing a decline of US\$49 million or 148% over the corresponding period in 2022. This performance was attributed mainly to net unrealized losses on investments in associates of US\$15 million for the period, representing a decline of 144% when compared to the similar period last year. This was offset by higher dividend income of US\$347K or 9.7%, along with improved unrealized gains on financial instruments at fair value through profit and loss (FVTPL) of US\$522K or 949%. The persistent high interest rate environment as well as high inflation levels in the economy negatively impacted the stock market throughout the financial year. Total operating expenses for the 12 months ended December 31, 2023 decreased by US\$1.7 million or 55.4% to US\$1.4 million when compared to the 2022 comparative period.

The Company recorded net loss of US\$1.9 million for the three months October to December 2023 compared to net profit of US\$5.9 million for the similar quarter in 2022. This result was driven by unrealized losses on fair value through profit and loss investments due to the depressed equity market. Total operating expenses for the quarter under review decreased by US\$1.2 million or 77% to US\$360K when compared to Q4 2022.

This resulted in a loss per share (LPS) of US\$0.013 for the 12 months ending December 31, 2023, versus earnings per share (EPS) of US\$0.028 for the 2022 comparative period.

### **Total Comprehensive Income**

The Company recorded total comprehensive loss of US\$18.3 million for the 12 months ended December 31, 2023. Other comprehensive income was due to changes in the fair value of equity investments carried at fair value through other comprehensive income (FVTOCI) which increased by US\$1.6 million or 125% to US\$329K. This was in addition to foreign currency translation losses of US\$2.7 million for the 12 month period due to the devaluation of the Jamaican dollar over the prior period. The company recorded other comprehensive loss of US\$406K for the three-month period October to December 2023 representing a decrease of 154% when compared to the comparative quarter in 2022.

Net unrealized gains on financial instruments at FVTPL of US\$577K for the 12 months ending December 31, 2023 represented an increase of 949% or US\$522K and was attributed to the price appreciation of some securities in the portfolio over the comparative period in 2022. For the three-month period to December 31, 2023, unrealized gains on investments at fair value through profit and loss (FVTPL) increased by US\$409K or 245%.
- Unrealized losses on investments in associates of US\$607K were generated for the three months ending December 31, 2023 compared to gains of US\$7.6 million for the similar quarter in 2022. The decline of US\$8.2 million or 108% was attributed to reductions in the market price of key associates associated with general stock market conditions.
- Net interest expense increased by US\$2.5 million or 151% to US\$4.1 million for the 12 months period due to the company increasing its borrowings through margin loans from the parent company for new investments. ### **Operating Expenses**

Operating expenses for Q4 2023 decreased by US\$1.2 million or 77%. The reduction for the quarter and year to date was mainly attributable to lower expenses incurred for incentive fees paid to the Investment Manager due to the losses incurred on the funds under management.

Total assets as at December 31, 2023 were valued at US\$158.8 million. This represents a 1.6% decrease from the US\$161.3 million reported as at December 31, 2022. The US\$2.5 million decrease was mainly attributable to a 14.1% decrease in investment in associates primarily due to the downward price movements for some key securities in that portfolio. Mayberry Jamaican Equities Limited's capital base continues to be strong, closing the quarter with US\$112.1 million in shareholders' equity compared to US\$130.9 million for Q4 2022.
