This Prospectus is intended for use in Jamaica only and is not to be construed as an invitation to any person outside of Jamaica to subscribe or apply to purchase any interest in the Secured Bonds. The distribution or publication of this Prospectus and the offering of Secured Bonds in certain jurisdictions may be restricted by law and, accordingly, persons into whose possession this Prospectus may come are required to inform themselves about, and to observe, such restrictions.

The Secured Bonds have not been nor will they be registered or qualified under the United States Securities Act, 1933, as amended, (the "1933 Act"), or any applicable Blue Sky law or other security law of any State or political sub-division of the United States of America. The Secured Bonds may not be offered, sold, transferred, or delivered, directly or indirectly in the United States of America, its territories or possessions or any area subject to the jurisdiction of the United States or in any other country in which an invitation to subscribe for the Secured Bonds or the offering of the Secured Bonds is not permitted by applicable law.

RESPONSIBILITY FOR CONTENT OF THIS PROSPECTUS

The Directors of Mayberry Jamaican Equities Limited, whose names appear in Part 9 of this Prospectus, are the persons responsible for the information contained herein. To the best of the knowledge and belief of such Directors, who have taken all reasonable care to ensure that such is the case, the information contained in this Prospectus is in accordance with the facts and does not omit anything likely to materially affect the import of such information. Each of such persons accepts responsibility accordingly and has signed Part 16 of this Prospectus.

No person is authorised to provide information or to make any representation whatsoever in connection with this Prospectus, which is not contained in this Prospectus.

CONTENT OF THIS PROSPECTUS

This Prospectus contains important information for prospective investors in the Company. All prospective investors should read the Prospectus carefully in its entirety before submitting an Application Form.

If you are in doubt about the contents of this Prospectus, you should consult your stockbroker, securities dealer, investment adviser, bank manager, attorney-at-law, professional accountant or other professional adviser.

This Prospectus contains summaries of certain documents which the Board of Directors of the Company believe are accurate. Prospective investors may wish to inspect the actual documents that are summarized, copies of which will be available for inspection as described in Part 15. Any summaries of such documents (including any of the documents relating to the issuance of the Secured Bonds) appearing in this Prospectus are qualified in their entirety by reference to the complete document. In cases of any conflict between the terms of this Prospectus and the transaction documents relating to the Secured Bonds, the latter will prevail.

The publication of this Prospectus shall not imply that there has been no change in the business, results of operations, financial condition or prospects of the Company since the date of this Prospectus.

Neither the FSC, nor the Registrar of Companies or any other Government agency or regulatory authority in Jamaica has made any determination as to the accuracy or adequacy of the matters contained in this Prospectus.

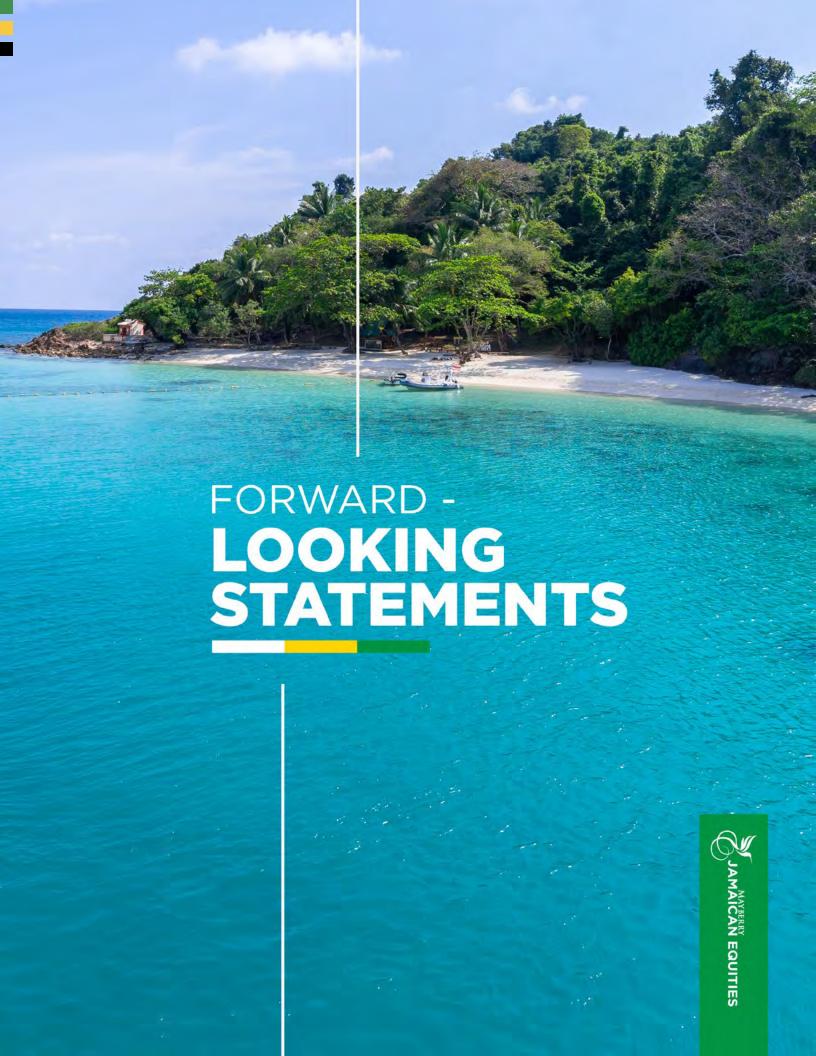

APPLICATION TO SUBSCRIBE FOR SECURED BONDS

This Prospectus is not a recommendation by the Company that prospective investors should submit Application Forms to apply for Secured Bonds issued by the Company. Prospective investors in the Company are expected to make their own assessment of the Company, and the merits and risks of applying for Secured Bonds. Prospective investors are also expected to seek appropriate advice on the financial and legal implications of applying for the Secured Bonds, including but not limited to any tax implications.

Each Applicant who submits an Application Form acknowledges and agrees that:

- (i) he/she has been afforded a meaningful opportunity to review the Prospectus (including in particular the terms and conditions set out in Section 6.16), and to gather and review all additional information considered by him/her to be necessary to verify the accuracy of the information contained in this Prospectus;
- (ii) he/she has not relied on the Company or any other person in connection with his/her investigation of the accuracy of such information or his/her investment decision; and
- (iii) no person connected with the Company has made any representation concerning the Company or this Prospectus not contained in this Prospectus, on which the Applicant has relied in submitting his/her Application Form.

2. FORWARD-LOOKING STATEMENTS

This Prospectus contains forward-looking statements. Forward-looking statements statements that are not about historical facts and speak only as of the date they are made and include without limitation the discussion of future plans and financial projections. Although the Company believes that in making any such statements its expectations based on reasonable assumptions, such statements may be influenced by factors that could cause actual outcomes and results to be materially different from those projected. Prospective investors in the Company are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the dates on which they have been made. Future events or circumstances could cause actual results to differ materially from historical or anticipated results.

Forward-looking statements may be identified by accompanying language such as "expects", "intends", "anticipates", "estimates" and other cognate or analogous expressions or by qualifying language or assumptions. These forward-looking statements are subject to numerous risks and uncertainties. Once this Prospectus has been signed by or on behalf of the Company, and prior to the admission of the Secured Bonds to trade on the Bond Market of the JSE, the Company undertakes no obligation to update publicly or revise any of the forwardlooking statements in light of new information or future events, including changes in the Company's financial or regulatory position, or to reflect the occurrence of unanticipated events (subject to any legal or regulatory requirements for such disclosure to be made). There are important factors that could cause actual results to differ materially from those in forward-looking statements, certain of which are beyond the Company's control. These factors include, without limitation, the following:

- general economic and business conditions prevailing both locally and internationally including: actual rates of growth of the Jamaican and regional economies, interest rates or exchange rate volatility.
- operational risks related to the administration and control of the Company's investment portfolio.

- risks related to portfolio companies in which the Company holds a material stake.
- risks related to the Company's competitive position.
- adverse climatic events and natural disasters.
- access to funding sources, and the cost of the funding.
- risks related to the Company's reliance on Mayberry Investments Limited for the provision of investment advisory services with respect to the Company's investment portfolio.
- the other factors discussed under "Risk Factors" below.

Neither the FSC nor any Government agency or regulatory authority in Jamaica has made any determination on the accuracy or adequacy of the matters contained in the Prospectus.

ISSUER:

Mayberry Jamaican Equities Limited, an international business company incorporated under the laws of St. Lucia (the "Issuer", "MJE" or the "Company").

INSTRUMENT:

The Secured Bonds are being issued in two (2) tranches; namely:

	Tranche I	Tranche II	
Amount (J\$)	500,000,000	500,000,000	
Interest Rate (per annum)	8.75%	9.25%	
Tenor	13 months	23 months	

OPTION UP-SIZE:

The Company reserves the right to up-size the Offer by issuing up to an additional J\$500,000,000.00 in any tranche or combination of tranches for a maximum of J\$1,500,000,000.00.

ISSUE PRICE:

100% of principal face value.

MINIMUM SUBSCRIPTION:

J\$20,000.00 and further increments of no less than J\$10,000.00.

INTEREST CALCULATION:

Interest will be calculated and accrued from day to day (after as well as before any judgment) but prorated on the basis of a 360-day year with 30 days comprised in each month and paid quarterly on each Interest Payment Date. The first Interest Payment Date will be September 30, 2025.

Interest will begin to accrue from the date an Applicant receives an Allocation Certificate or other written confirmation of the commencement of accrual interest (whichever is earlier).

INTEREST PAYMENT
DATE:

Interest will be due and payable on December 30, March 30, June 30, and September 30 in each year, save and except that the first Interest Payment Date shall be September 30, 2025 and the final Interest Payment Date shall also be the Maturity Date.

MATURITY DATE:

For Tranche I - the Business Day falling 13 months after the Issue Date For Tranche II - the Business Day falling 23 months after the Issue Date

SECURITY:

The Company's obligation to pay will be secured by a charge over a basket of the Equities Portfolio sufficient to meet the Minimum Collateral Coverage Ratio (the "Charged Shares").

See Section 6.10 for a more detailed description of the collateral.

FINANCIAL COVENANTS:

The Secured Bonds benefit from two (2) financial covenants (the "Financial Covenants"). In brief, the Financial Covenants require the Company to maintain a:

- (i) Maximum Leverage Ratio whereby Net Debt is not to exceed 40% of Total Equity; and
- (ii) Minimum Collateral Coverage Ratio of no less than 150%

See Section 6.9 for more information on the Financial Covenants.

INTEREST RESERVE ACCOUNT:

The Company will establish an Interest Reserve Account equivalent to the total interest on all tranches of the Secured Bonds for one (1) quarter.

See Section 6.8 for more information on the Interest Reserve Account.

EARLY REDEMPTION:

The Company may voluntarily prepay any tranche of the Secured Bonds or redeem, at par, all or some only of the Secured Bonds in issue without premium or penalty on any Interest Payment Date subject to giving thirty (30) days' notice.

PRINCIPAL:

The principal along with the accrued interest will be due and payable on the relevant Maturity Date and, in the case of early redemption, without a prepayment penalty or early redemption fee on the date of early redemption or prepayment.

USE OF PROCEEDS:

The Company intends to use the proceeds from this invitation to repay existing indebtedness, to expand its investment portfolio and to fund the Interest Reserve Account.

The Company also intends to pay the expenses associated with the Invitation out of the proceeds, which it estimates will not exceed J\$40,000,000.00 inclusive of General Consumption Tax.

EVENTS OF DEFAULT:

The Events of Default are set out in full at Section 6.11

TAXATION:

The Company is an international business company that is resident in Saint Lucia. Accordingly, interest payable upon the Secured Bonds sourced from Saint Lucia will not be subject to withholding tax in Saint Lucia.

If the Secured Bonds are listed on the Bond Market of the JSE as anticipated, the transfer of the Secured Bonds will be exempt from both Transfer Tax and Stamp Duty.

Each prospective Bondholder should consult with an independent advisor as to the tax(es) that is applicable to them.

LISTING:

The Company will apply to the JSE to list the Secured Bonds on the Bond Market Platform of the JSE. This is not a guarantee that the application will be successful.

PROCESSING FEE:

J\$172.50 per Application.

SECURITY TRUSTEE
AND
ADMINISTRATION
AGENT:

JCSD Trustee Services Limited.

TERMS AND CONDITIONS:

See Section 5.14 of this Prospectus.

KEY DATES:

Registration of Prospectus with COJ: August 8, 2025

Registration of Prospectus with FSC: August 12, 2025

Publication of Prospectus: August 14, 2025

Opening Date: 9:00 A.M. on August 21, 2025

Closing Date*: 4:30 P.M. on September 12, 2025

*subject to the right of the Company to shorten or extend the subscription period in the circumstances set out in this Prospectus.

APPLICATION GUIDELINES:

See Appendix 1 of this Prospectus.

APPLICATION PROCEDURES:

See Section 6.16 for terms and conditions.

APPROVED PAYMENT METHODS:

- (i) Manager's cheque payable to the Applicant's stockbroker, Mayberry Investments Limited and/or any of the approved Selling Agents for amounts less than J\$1.0 million;
- (ii) Cleared funds held in an equity/investment account in the Applicant's name at Mayberry Investments Limited supported by an authorization from the Applicant instructing Mayberry Investments Limited to debit the Applicant's equity/investment account;
- (iii) Transfer from the Applicant's account held with the Applicant's stockbroker;
- (iv) Transfer in the Real Time Gross Settlement (RTGS) system to an account designated by Mayberry Investments Limited;
- (v) Transfer via the Automated Clearing House (ACH) to an account designated by Mayberry Investments Limited.

Note that: A penalty of J\$5,000.00 is imposed by commercial banks in Jamaica in respect of cheques (including manager's cheques) tendered for payment in an amount greater than or equal to J\$1,000,000.00.

BASIS OF ALLOTMENT:

Application Forms that meet the requirements set out in this Prospectus and the Application Guidelines in Appendix 1 will be accepted on a "first come first served basis".

If any of the tranches is oversubscribed (after the exercise of the option to up-size), it is likely that the Secured Bonds in that tranche will be allocated on a pro rata basis, in which event Applicants may be allotted fewer Secured Bonds than were the subject of their Application(s). However, the Company (in the event of oversubscription) reserves the right to allot Secured Bonds on an alternative basis to be determined in its sole discretion including allotting a minimum of Secured Bonds to each Applicant and then allocating the excess on a pro rata basis or on such alternative basis as seems justifiable having regard to fairness and efficacy.

CONFIRMATION OF ALLOTMENT:

All Applicants may refer to the confirmation instructions that will be posted on the JSE Website (www.jamstockex.com) within six (6) Business Days of the Closing Date.

RETURNED APPLICATIONS REFUNDS:

Available for collection where originally submitted within 10 (ten) days of the Closing Date (or the extended Closing Date, as the case may be).

*The Invitation will close at 4:30 p.m. on the Closing Date of September 12, 2025, subject to the right of the Company to: (i) close the Invitation at any time after 9:00 a.m. on the Opening Date of August 21, 2025 once the issue is fully sold and subscribed; and/or (ii) extend the Closing Date. In either case, notice will be posted on the website of the JSE (www.jamstockex.com).

**It is the intention of the Company to apply to the JSE for listing of the Secured Bonds on the Bond Market of the JSE. Please note that this statement of the Company's intention is not a guarantee that the Secured Bonds will in fact be admitted to trading on the Bond Market of the JSE.

Dear Prospective Investor:

June 25, 2025

The Board of Mayberry Jamaican Equities Limited (the "Company") is pleased to invite you to subscribe for Secured Bonds to be issued by the Company on the terms set out in this Prospectus

A BALANCED PORTFOLIO

We continue to believe that investors should allocate a portion of their portfolio towards fixed income investments such as the Secured Bonds as a part of maintaining a balanced investment portfolio.

A valuable benefit of fixed income investments issued by blue-chip corporates is that they tend to have lower price movement than shares. For instance, a softer than expected quarterly financial update will typically cause more significant downward pressure on the share price of equities than on the fixed income instruments issued by the very same corporate entity.

Additionally, the Secured Bonds carry a contractual right to quarterly interest payments. The relevance of this quality, versus a dividend (which is within the discretion of the board of directors) becomes more significant for investors when corporates chose to either reduce or delay their dividend payments.

Accordingly allocating a portion of your portfolio to fixed income investments such as the Secured Bonds can reduce the overall risk of your portfolio and in our view better enable you to meet your investment objectives.

FIXED INCOME INVESTMENTS IN DECLINING INTEREST RATE ENVIRONMENT

Local interest rates have been trending downwards Over the last year the Bank of Jamaica's Monetary Policy Committee has reduced its policy rate by 125bps (1.25%) to the current 5.75%.

If interest rates continue this downward trajectory, the yield on the Secured Bonds will look even more attractive to potential investors.

THRESHOLD TO PARTICIPATE

In Part 6 of this Prospectus, we provide details relating to the Secured Bonds. I will highlight here that the minimum investment in the Secured Bonds is J\$20,000.00 with additional increments in multiples of J\$10,000.00. The amount therefore required to participate in this Invitation is substantially lower than the minimum amount typically required for an investor to directly purchase a debt security.

Although in our view the Secured Bonds offer a unique opportunity to small investors, it also has the attractive feature of being within the universe of *Allowable Assets* for retail repurchase transactions. That characteristic will be an added benefit to our larger, more sophisticated investors that satisfy the requirements to conduct retail repurchase transactions. Those investors that are able to use the Secured Bonds for retail repurchase transactions should even more so appreciate the lower volatility of fixed-income instruments versus shares in times of market volatility.

THE COMPANY & THE BUSINESS

In Part 6 of this Prospectus, we provide details relating to the Company and our business. Very briefly, MJE is an investment holding company that has two main business lines. The first is making long-term investments in listed companies. Among our more valuable long-term holdings is Supreme Ventures Limited of which we own 18.78% as at March 31, 2025. The value of that position as at June 24, 2025 was approximately J\$9.9 billion.

The second line of business is our active trading book involving opportunistic stock market purchases and sales where we actively seek to realise profits over a short to medium term horizon.

Additionally, on some occasions we will get opportunities to liquidate our long-term investments at attractive valuations. For instance, in Q3 2024 we took the opportunity to monetize our long-standing 20% holding in Caribbean Producers Jamaica Limited, a transaction that was done at a very attractive share price and which yielded the Company approximately J\$2.3 billion in sales proceeds. See our disclosure on that transaction: https://www.mayberryinv.com/wp-content/uploads/2024/07/MJE-Immediate-Press-Release-MJE-Announces-Sale-of-Stake-in-CPJ-1.pdf

FINANCIAL PERFORMANCE

In Part 10 of this Prospectus, you will find a management discussion and analysis of our recent financial performance. Bear in mind that if you require additional details, MJE has been listed on the Main Market of the Jamaica Stock Exchange since July 2018, and detailed financial information as well as our annual reports are available at https://www.mayberryinv.com/mje/investor-relations/.

5.1 AUTHORISATION OF THE INVITATION

- 6.1.1 The Company's Board of Directors by a resolution dated July 2, 2025 authorised the Company to raise J\$1,000,000,000.00 of Secured Bonds with the option to up-size to a maximum of J\$1,500,000,000.00 from an Invitation to the general public. The Company reserves the right to take up any sum less than J\$750,000,000.00 in any of the two (2) tranches of the Secured Bonds. The Company's Borrowing Powers are set out at Appendix 2. The board resolution approving the Invitation is amongst the Documents Available for Inspection.
- 6.1.2 The Company will make an application to the JSE for the Secured Bonds to be admitted to trading on the Bond Market. If the application is successful, it is anticipated that the Secured Bonds will be admitted to trading within twenty-one (21) days of the Closing Date (or the extended Closing Date, as the case may be).
- 6.1.3 Prospective investors should read all of the sections referred to carefully together with the remainder of this document. Those prospective investors who wish to apply for Secured Bonds should also refer to the full terms and conditions set out in Section 6.16.

6.2 The Secured Bonds

6.2.1 The Secured Bonds will be issued in two (2) tranches as follows:

	Tranche I	Tranche II

6.3 USE OF PROCEEDS

- 6.3.1 The proceeds from this Invitation will also be used to fund the Interest Reserve Account and to pay the expenses associated with the Invitation.
- 6.3.2 Additionally the proceeds from the Invitation will be used to partially repay existing indebtedness of approximately J\$996,460,000 owing under the 9.25% Secured Bonds Tranche I due July 26, 2025. The balance from the net proceeds will be used to expand the Company's investment portfolio.

6.4 TRUST DEED

6.4.1 The Secured Bonds will be issued under a Trust Deed between the Company and JCSD Trustee Services Limited. Pursuant to the Trust Deed, JCSD Trustee Services Limited has been appointed security trustee for the benefit of Bondholders (the "Security Trustee"). The Security Trustee has also been appointed the registrar and paying agent (the "Registrar and Transfer Agent"). The Security Trustee's rights, powers and duties are set out in the Trust Deed.

6.5 SECURED BONDS

- 6.5.1 On the Issue Date, the Company will issue a Global Bond in respect of each tranche of the Secured Bonds. Each Global Bond will be in the principal amount purchased by all Bondholders for that tranche of the Secured Bonds. The Form of the Global Bond is set out in Appendix 3 hereto.
- 6.5.2 The Global Bonds are only being issued in Jamaica.

6.6 INTEREST RATE

6.6.1 The interest rate in respect of each tranche is as follows:

	Tranche I	Tranche II
Interest Rate:	8.75% per annum	9.25% per annum

- 6.6.2 Interest will be calculated and accrued from day to day (as well after as before any judgment) but be prorated on the basis of a 360-day year with 30 days comprised in each month and will be paid quarterly on each Interest Payment Date. The first Interest Payment Date will be September 30, 2025.
- 6.6.3 Interest will begin to accrue from the date an Applicant receives an Allocation Certificate or other written confirmation of the commencement of accrual interest (whichever is earlier).

6.7 DATES FOR PAYMENT OF PRINCIPAL AND INTEREST

- 6.7.1 Interest will be due and payable on December 30, March 30, June 30, September 30 in each year, save and except that the first Interest Payment Date shall be September 30, 2025 and the final Interest Payment Date shall also be the Maturity Date for the relevant tranche.
- 6.7.2 Principal along with accrued interest will be due and payable on the relevant Maturity Date without a prepayment penalty or early redemption fee on the date of early redemption or prepayment.

6.8 INTEREST RESERVE

- 6.8.1 The Company will establish an Interest Reserve Account equivalent to the total interest on all tranches of the Secured Bonds for one (1) quarter. The funds for the initial funding of the Interest Reserve Account will be retained from the proceeds of this Invitation.
- 6.8.2 Payments, transfers or deductions from the Interest Reserve Account must be in connection with servicing the repayment obligations under the Secured Bonds.
- 6.8.3 The assets in the Interest Reserve Account will be invested in such manner as mutually agreed by the Issuer and Arranger, and in the event of no such agreement, as determined by the Security Trustee.

6.9 FINANCIAL COVENANTS

- 6.9.1 The Secured Bonds include two (2) financial covenants for the benefit of the Bondholders.
 - (i) Maximum Leverage Ratio:
 - The Company shall not incur Debt which would result in its Net Debt exceeding 40% of its Total Equity.
 - This covenant shall be tested on a rolling 12-month basis on each Interest Payment Date.

(ii) Minimum Collateral Coverage Ratio:

- The Company maintain a basket of the Equities Portfolio, being the Charged Shares, as security for the Secured Bonds such that the market value of the Charged Shares shall be no less than 150% of the aggregate principal amount owing on the Secured Bonds issued pursuant to this Prospectus.
- The Minimum Collateral Coverage Ratio will be tested on the final Business Day of each quarter.
- If the Minimum Collateral Coverage Ratio is not maintained at the aforesaid minimum level, the Security Trustee may give not less than twenty-one (21) days written notice to the Company to add additional securities to the Charged Shares to achieve the minimum ratio.
- 6.9.2 The terms in bold are defined in the Definitions at Part 5.

6.10 COLLATERAL

- 6.10.1 The Company's obligation to pay will be secured by a charge over a basket of the Equities Portfolio sufficient to maintain the Minimum Collateral Coverage Ratio.
- 6.10.2 If this Invitation is over-subscribed, and the option to up-size is fully utilized the aggregate, principal amount owing on the Secured Bonds in issue will be J\$1,500,000,000 and the Minimum Collateral Coverage Ratio shall be no less than J\$2,250,000,000.00.
- 6.10.3 The table below sets out the indicative Equities Portfolio basket that the Company will use to constitute the Charged Shares in order to satisfy the Minimum Collateral Coverage Ratio (along with a buffer). Price per Stock Unit is shown as at July 7, 2025:

Company	Total Stock Units owned	Stock Units comprising Charged Shares	Price per Stock Unit	Market Value of Charged Shares (J\$)
Supreme Ventures Limited	503,569,476	115,000,000	19.79	2,275,850,000.00
		Value of Charged Shares:	J\$2,275,850,000.00	
		Assuming aggregate principal amount owing on the Secured Bonds is J\$1,500,000,000.00		Secured Bonds is
		Collateral Coverage Ratio a	chieved with the Charge	d Shares: 152%

- 6.10.4 The tables at Section 7.7 below set out the portion of the Equities Portfolio that is already subject to a security interest. The Charged Shares set out in the table directly above are not subject to any security interest and will only be used as collateral for the Secured Bonds to be issued pursuant to this Prospectus.
- 6.10.5 As set out in the table at Section 7.7 below, 203,000,000 of the Supreme Ventures Limited stock units which are owned by the Company have been charged as security under other facilities as set out in section 7.7 below.

6.11 EVENTS OF DEFAULT

- 6.11.1 The following is a summary of the Events of Default which would allow the Security Trustee on behalf of the Bondholders to demand immediate payment of all principal and interest upon the Secured Bonds:
 - (i) default by the Company in paying any sum due under the Secured Bonds for a period of five (5) Business Days; or
 - (ii) any representation or warranty made by the Company in the Trust Deed being incorrect in any material respects when made and the Company either knew or ought reasonably to have known it was incorrect; or

- (iii) default by the Company in the performance or observance of any covenant, condition or other provision in the Trust Deed including the Financial Covenants; or
- (iv) if an order is made or resolution passed for the Company to be wound up, except a voluntary winding-up previously approved by the Company; or
- (v) if an encumbrancer shall take possession of, or a receiver is appointed over, all or any part of the Company's assets and the Security Trustee certifies that in its opinion such action is materially prejudicial to the interest of Bondholders; or
- (vi) if any distress or execution is levied against the Company and the Security Trustee certifies that in its opinion such action is materially prejudicial to the interest of Bondholders; or
- (vii) if the Company stops or threatens to stop payment of its debts or shall cease or threaten to cease to carry on the whole or substantially the whole of its business and the Security Trustee certifies that in its opinion, such event will be materially prejudicial to the interest of Bondholders; or
- (viii) if the Trust Deed or the Secured Bonds is, or becomes, or is alleged to be, unlawful or unenforceable; or

^{*} Price per Stock Unit as at April 26, 2024

(ix) if any Insolvency Event shall occur with respect to the Company; or

(x) if final judgment is rendered against the Company and such judgment remains unsatisfied for a period of forty-five (45) days unless such judgment is the subject of a bona fide appeal.

In respect of the events listed at (iii), (viii) and (x) above the Company has a cure period of fourteen (14) days after notice from the Security Trustee to remedy the breach and if such breach is not remedied within such period only then will an Event of Default occur.

- 6.11.2 Upon (i) receipt of a notice or certificate from the Company or a Bondholders' Majority that an Event of Default has occurred and is continuing or (ii) upon the occurrence and continuance of an Event of Default by reason of non-payment of any sum payable to the Bondholders or the Security Trustee as aforesaid (after giving effect to any grace period applicable thereto or service of any requisite notice upon the Company or issuing of any certificate), then, the Security Trustee shall, summon one or more meetings of Bondholders or otherwise poll Bondholders to determine by Ordinary Resolution whether any one or more or all of the following action(s) shall be taken by the Security Trustee on behalf of Bondholders:
 - (i) making a demand for payment under the Secured Bond; and/or
 - (ii) declaring the principal sum owing on the Secured Bonds (with accrued interest thereon) and all other amounts owing in respect thereof be due and payable forthwith, whereupon the same shall immediately become due and payable; and/or
 - (iii) taking legal proceedings against the Company on behalf of Bondholders; and/ or
 - (iv) taking any one or more Enforcement Actions (including the appointment of a

receiver); and/or

(v) take any other action deemed appropriate.

- 6.16.10 The Company and the Board in their sole discretion, may:
 - (i) accept or reject any Application Form in whole or part without giving reasons, and neither the Board (nor any of the Directors) nor the Company shall be liable to any Applicant or any other person for doing so; and
 - (ii) treat multiple applications by any person (whether in individual or joint names) as a single application.

- 6.16.11 Neither the submission of an Application Form by an Applicant nor its receipt by the Company will result in a binding contract between the Applicant and the Company. Only the allotment of Secured Bonds by the Company to an Applicant (whether such Secured Bonds represent all or part of those specified by the Applicant in his/her Application Form) will result in a binding contract under which the Applicant will be deemed to have agreed to purchase the principal amount of Secured Bonds applied for at 100% of the face value of the Secured Bonds.
- 6.16.12 The Board, in its sole discretion, may accept (in whole or in part) or reject, in whole or in part, any Application for Secured Bonds, even if the Application is received, validated and processed. Accordingly, the principal amount of Secured Bonds allocated to you may be reduced.
- 6.16.13 Successful Applicants will be allotted Secured Bonds for credit to their account in the Jamaica Central Securities Depository specified in their Application Forms. Applicants may refer to the confirmation instructions that will be posted on the website of the Jamaica Stock Exchange (www.jamstockex.com) after the Closing Date.
- 6.16.14 If any of the tranches is oversubscribed (after the exercise of the option to up-size), it is likely that the Secured Bonds in that tranche will be allocated on a pro rata basis, in which event Applicants may be allotted fewer Secured Bonds than were the subject of their Application(s). However, the Company (in the event of oversubscription) reserves the right to issue Secured Bonds on an alternative basis to be determined in its sole discretion including allotting a minimum of Secured Bonds to each Applicant and then allocating the excess on a pro rata basis or on such alternative basis as seems justifiable having regard to fairness and efficacy.

- 6.16.15 The Company will endeavour to return cheques for the amounts refundable to Applicants whose Application Forms are not accepted, or whose Application Forms are only accepted in part, to the Applicant's address shown in the Application Form within 10 (ten) working days after the Closing Date (or the extended Closing Date, as the case may be) or as soon as practicable thereafter. If an Applicant so indicates on his Application Form his refund cheque will be sent to Mayberry for collection by the Applicant (or the first-named joint Applicant) stated in the Application Form. Any other persons purporting to collect a cheque on behalf of the Applicant must be authorised in writing by the Applicant(s) to do so. All refunds of a quantum greater than the RTGS threshold of J\$1 million, will be refunded via RTGS to the account of origin.
- 6.16.16 Applicants must be at least 18 years old. However, Applicants who have not yet attained the age of eighteen (18) years may apply jointly with Applicants who are at least eighteen (18) years of age.

GENERAL INFORMATION

Mayberry Jamaican Equities Limited ("MJE", the "Company" or the "Issuer") was incorporated in Saint Lucia on June 23, 2005, as a whollyowned subsidiary of Mayberry Investments Limited ("Mayberry"). MJE's purpose was to act as a passive investment vehicle for Mayberry. In 2018 Mayberry conducted a partial spin-off of its shareholding in the Company by declaring a dividend to its stockholders and satisfied that dividend by an in specie distribution of 10% of its shares (120,114,929 shares) in the Company. Additionally, in 2018 Mayberry conducted an Offer for Sale of another 10% of its shares in the Company. As part of the Offer for Sale the Company's ordinary shares were listed on the Main Market of the Jamaica Stock Exchange. As at the date hereof the Company is a 50.42% subsidiary of Mayberry Group Limited, as a result of an internal restructuring whereby Mayberry Group Limited acquired the shares in MJE previously owned by Mayberry

COMPANY'S BUSINESS

- 7.2 The Company carries on business as an investment holding company. There are two distinct parts to its business.
 - Portfolio Investment: The Company will thoroughly research and identify listed companies that it perceives to be wellmanaged and poised for growth and will take a strategic position (10-19.9%) in such a company with the intention of holding that investment until the company matures. So far, the Company has made portfolio investments in six (6) portfolio companies set out at Section 7.3 below. The Company will work closely with these entities -often taking board seats and closely monitoring the investment. In addition, the Company's parent company, Mayberry Group Limited will provide investment banking services to portfolio companies during its growth stage.
 - Active Trading: The Company will also purchase stock in other publicly traded companies and will, depending on a company's outlook, hold or actively trade such stock. The Company holds stock in over 30 public companies listed on the Main Market or the Junior Market of the JSE.

LITIGATION

7.14 There is no material litigation, arbitration, or similar proceedings pending or threatened against the Company as defendant nor is the Company a claimant to any material litigation.

DIVIDEND POLICY

7.15 The Company has been a steady dividend payer. There is however no obligation on the Company or the Board to declare and pay a dividend. The Board determines the level of dividends which are justifiable based on the profits of the Company as well as its internal needs for capital.

INTERIM AND AUDITED FINANCIAL STATEMENTS

7.16 The Company's ordinary shares have been listed on the Main Market of the Jamaica Stock Exchange since 2018. The Company's interim and Audited Financial Statements since 2018 may be found on the website of the Jamaica Stock Exchange at: www.jamstockex.com or at https://www.mayberryinv.com/mje/investor-relations/

- 8.1 In addition to other information set forth in this Prospectus, investors should consider carefully the risks described below before subscribing for Secured Bonds in the Company. These risks are not the only ones facing investors. Additional risks, not presently known to the Directors, or that the Directors may presently consider immaterial, may also impair the Company's operations.
- 8.2 This Prospectus also contains forward-looking statements that involve risks and uncertainties. The Company's actual results could differ materially from those anticipated as a result of certain factors, including the risks faced by the Company described below and elsewhere in this Prospectus.

STRATEGY RISKS

We face many risks arising from our investment strategy.

- 8.3 So far, our investment strategy has been twofold: (i) to make long term investments in listed equities or IPO-stage companies and to hold those investments for the medium to long term and (ii) to actively trade in listed Jamaican equities.
- 8.4 There are material risks associated with this strategy. The asset allocation between the two investing opportunities may be affected by a wide variety of factors such as not enough suitable IPO-stage candidates for portfolio investment, substantial concentration of risks in the Junior Market and expiration of tax incentive currently enjoyed by Junior Market companies.
- 8.5 We may from time to time hold un-invested assets such as cash in hand or investment in bank demand deposits. This may occur by reason of redemption or encashment of investments, dividend receipts or cash from secondary sale of shares. Holding un-invested assets would have a negative impact on the rate of return on our investment portfolio and increases the risk that the assets may be invested in securities which are less than ideal.
- 8.6 We have only one investment manager (Mayberry Asset Managers Limited). This means that our investment strategy may lack diversification and competitive tension when compared to an investment fund which allocates investable funds between competing investment managers.

DEPENDENCE ON KEY INDIVIDUALS

We are wholly dependent on certain Key individuals to implement and execute its investment strategy.

8.7 We have limited employment resources in Saint Lucia because our business activities relate to investment in the Jamaican equities market. We have an investment management agreement with Mayberry Asset Managers Limited ("MAM"). MAM in turn relies on the investment expertise of its principals, Christopher Berry, Konrad Mark Berry and Gary Peart, to provide the requisite investment management services to us. If for any reason one or more of these individuals is no longer available to provide investment management services to us through MAM then our investment plans could be adversely affected if suitable replacement cannot be found.

OPERATIONAL RISKS

Like any other business we face the risk of fraud and internal mal-administration.

- 8.8 In the execution of our business functions we are exposed to operational risks arising from failures in systems and the processes through which we operate. Critical areas of operational risks include:
 - (a) data entry, accounting errors and compliance failures;
 - (b) employee errors, computer and manual systems failures, security failures; and
 - (c) fraud (internal and external) or other criminal activity.
- 8.9 Our Board of Directors will seek to counter such risks by maintaining a comprehensive accounting and financial control system. In terms of financial and accounting controls we will maintain our current internal controls and administrative checks and balances to monitor transactions supported by a robust external audit oversight.

RISKS OF HURRICANE, FIRE AND OTHER ACTS OF GOD

Catastrophic events affecting Jamaica such as a pandemic, hurricane and earthquake could impact generally on economic activity in Jamaica and our financial performance.

- 8.10 The Company is susceptible to wider risks in its operating environment which includes pandemic risks which may impede business operations and/or the functioning of the wider economy. This risk might include a reemergence of the coronavirus (original and/or new variants) as well as possible other new pandemics associated with novel/re-emerging viruses. We however emphasize that this risk is not unique to the Company, as both domestic and global businesses are exposed to this risk factor.
- 8.11 Although we do not hold physical assets which are exposed to the elements nevertheless, we invest in Jamaican companies which are so exposed. If a catastrophic event were to strike Jamaica (such as an earthquake or hurricane), Portfolio Companies such as Supreme Ventures Limited and Caribbean Producers (Jamaica) Limited could suffer material damage to their plant and equipment and may cease production for a sustained period. IronRock Insurance Company Limited, as a general insurer, would be faced with numerous claims and could suffer material underwriting losses especially if its reinsurance treaty arrangements are less than optimal or if such reinsurance carriers default on their obligations due to financial difficulties. Lasco Financial Services Limited is a remittance and moneylending company and although overseas remittances in a disaster affecting the Island may increase, borrowers (which are mainly small businesses or working individuals not likely to have disaster insurance) may be unable to repay their loans.
- 8.12 Moreover economic activity on the Island could be severely affected by such a disaster with deleterious effect on business activity in all sectors of the economy.

PANDEMICS

- 8.13 On March 11, 2020 the World Health Organisation declared that the novel coronavirus (SARS-COV-2), which causes the disease referred to as COVID-19 ("COVID-19"), had reached the status of a global pandemic (the "COVID-19 Pandemic"). The first instance of COVID-19 in Jamaica was detected in the same month.
- 8.14 The COVID-19 Pandemic and the measures adopted by the various governments (including the Jamaican Government) to mitigate the spread of COVID-19 have had a material impact on the world economy.
- 8.15 The COVID-19 Pandemic or similar public health crises that may arise would have a material impact on Portfolio Companies similar to those described at Sections 8.11 to 8.12 above including disruptions to their activities, potential claims and even temporary cessation in activities.

COMPLIANCE WITH ECONOMIC SUBSTANCE LEGISLATION IN SAINT LUCIA

As a Saint Lucian international business company ("IBC") which does not sell goods and services to Saint Lucians, we have to comply with the Economic Substance Act of Saint Lucia ("ESA") and we will face penalties if we fail to do so.

- 8.16 Under pressure from the Organization of Economic Cooperation and Development's Forum on Harmful Tax Practices (OECD-FHTP) and European Union (EU) Code of Conduct Group (CCG) (Business Taxation) Saint Lucia, like many low tax jurisdictions was forced to adopt Economic Substance legislation. This legislation seeks to prevent groups of companies from shifting profits from high tax countries where they are earned to low tax counties in which such countries may have little or no economic footprint.
- 8.17 As a Saint Lucian IBC, we are affected by the Saint Lucian ESA. The ESA requires that entities such as us, which do not sell goods and services to Saint Lucians, should have a minimum level of economic substance in Saint Lucia commensurate with their income-earning activities. In our view we could be treated, under the ESA, as a company holding intangible assets (i.e., shares in portfolio companies). As such we are required to:
 - (a) hold the majority of our board meetings

in Saint Lucia so that we can be treated as managed and controlled there;

- (b) have an adequate number of employees in Saint Lucia commensurate with the size of our business;
- (c) have adequate operating expenses proportionate to our activities in Saint Lucia;
- (d) have adequate physical presence in Saint Lucia (i.e., office premises); and
- (e) conduct our Core Income Generating Activities ("CIGA") in Saint Lucia.
- 8.18 At the end of each year, we are required to file an Economic Substance Report with the relevant authority to demonstrate that we have met the economic substance standard. If we fail to do so, we could be liable to a fine of EC\$1,000.00 per month or part of a month in which the default continues.

INTEREST RATE RISK

- 8.19 Our business is sensitive to volatility in interest rates. Interest rates are affected by several factors that are out of our control, including fiscal and monetary policies of governments and central banks, as well as domestic and international political conditions.
- 8.20 A fixed interest rate is set at the time of issue of the Secured Bonds. Until maturity, holders of the Secured Bonds are exposed to the risk of a change in interest rates available on similar or alternative investment opportunities in Jamaica. Due to the short maturity period of the Secured Bonds, the risk is lower than with long-term financial instruments; however, it is possible that the interest rate on the Company's Secured Bonds will be lower than the then prevailing market interest rate.

CHANGES IN ACCOUNTING RULES

8.21 Our business may become subject to new accounting rules or standards that differ from those that are presently applicable. Such new accounting rules or standards could require significant changes in the way the Company currently reports its financial position, operating results or cash flows. Such changes could be applied retrospectively. This is a risk that is common to companies that apply International

Financial Reporting Standards (IFRS), as required under the Companies Act.

EARLY REDEMPTION OR PREPAYMENT RISK

8.22We may, by giving thirty (30) days' Notice, choose whether to wholly or partially redeem the Secured Bonds. As a result (particularly in a declining interest rate environment), a Bondholder may not be able to reinvest the proceeds received from the redemption in a comparable security at an effective interest rate as high as the interest rate on the Secured Bonds. In an increasing interest rate environment, the Company would be unlikely to redeem the Secured Bonds early.

RISK OF FINANCIAL DISTRESS

- 8.23 Our ability to make payments on (or to refinance) indebtedness including the Secured Bonds and to fund our business will depend upon our ability to generate cash from operations in the future. Our operational performance is subject to general economic conditions, financial, legislative and regulatory factors that are beyond our control. Consequently, there is a risk that our business may not generate sufficient cash flow from operations or financing to enable it to pay its indebtedness, including the Secured Bonds, or to fund our other cash needs. In such case we may need to sell assets, seek additional equity, reduce, restrict or delay the implementation of strategic business initiatives. There is also a chance that we may be declared bankrupt, become insolvent, liquidate or otherwise reorganise or restructure its indebtedness.
- 8.24The Secured Bonds include the Financial Covenants (summarized at Section 6.9) that restricts our ability to incur further indebtedness unless the covenants are waived by the Security Trustee. The Financial Covenants should also act as an early warning sign that our business is deteriorating by giving Bondholders an opportunity to take action early.

INFLATION RISK

8.25 The Secured Bonds have a fixed rate of interest, and accordingly the risk exists that the rate of price increases in the economy (the inflation rate) will increase to the point where it materially reduces or even overtakes the real rate of return on the Secured Bonds.

RISK RELATING TO THE INCENTIVE/ PERFORMANCE FEE.

Performance Fee payable to MAM is based on an increase in Comprehensive Income and is not correlated to the absolute return made by us.

8.26Under our Investment Management Agreement, we must pay a performance fee of 8% of any increase in our Total Comprehensive Income (year over year) as shown by our audited financial statement. Total Comprehensive Income is defined to include net un-realized gains on investment assets (including foreign exchange gains and losses). Thus, the performance fee is not based on the absolute realized return achieved by us. Accordingly, we could realize minimal net profits or even losses for a financial year and yet have to pay performance fees.

TRADING RISKS

8.27 We maintain trading and investment positions in the fixed income and equity markets. To the extent that we own assets, i.e., have long positions, in any of those markets, a downturn in those markets could result in losses from a decline in the value of those long positions. Conversely, to the extent that we may have sold assets we do not own, i.e., have short positions, in any of those markets, an upturn in those markets could expose us to potentially substantial losses as we attempt to cover our short positions by acquiring assets in a rising market.

MANAGEMENT DISCUSSION AND ANALYSIS

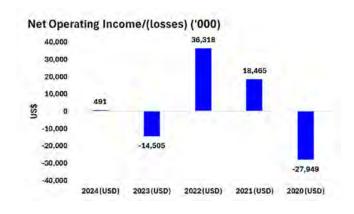

- 10.1 Mayberry Jamaican Equities Limited ("MJE" or the "Company") is an investment company whose objective is to achieve long term capital appreciation, while preserving capital by investing in publicly traded Jamaican equity securities. Additionally, the Company seeks attractive risk-adjusted returns using a value-based approach to identify and invest in high quality public businesses. This approach is designed to compound book value per share over the long term.
- 10.2 Sections 10.3 to 10.20 below set out the fiveyear financial highlights. A table summary of the five-year historical financial information is set out at Sections 12.1 and 12.2 below.

5 - YEAR FINANCIAL HIGHLIGHTS

Net Operating Revenue

10.3 The period under review was marked by sharp variations in Net Operating Income (NOI). Following a loss of US\$27.95 million in the financial year 2020-driven primarily by a US\$19.3 million unrealized loss on investments— MJE reported a strong rebound to US\$18.47 million in 2021 and further growth to US\$36.32 million in 2022, representing a 96.7% increase year over year. However, this upward trend was disrupted in 2023, when the company recorded a Net Operating Loss of US\$14.50 million, largely attributable to a US\$14.43 million unrealized loss on investments in associates. In 2024, NOI modestly recovered to US\$0.49 million, supported by a US\$15.3 million year-over-year increase in net fair value gains on investments in associates and a US\$1.6 million increase in gains on financial assets at fair value through profit or loss (FVTPL).

Net Unrealized Gains on Financial Instruments

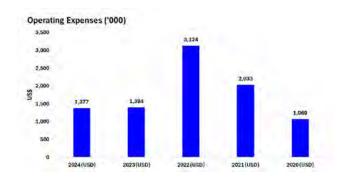

- 10.4 Net Unrealized Gains on Financial Instruments have fluctuated over the past five years. In 2020, the Company recorded a significant unrealized loss. However, this position improved in 2021 and 2022, with gains of US\$16.93 million and US\$34.19 million, respectively. In 2023, the Company reported net unrealized losses of US\$14.43 million on investments in associates, a 142% decline year-over-year.
- 10.5 In 2024, the Company recorded a net gain of US\$0.91 million on investments in associates and US\$1.73 million on other financial instruments at FVTPL, reflecting a recovery in market valuations.

Dividend Income

10.6 From 2019 to 2023, the Company's Dividend Income grew at a compound annual growth rate of 9%, reaching US\$3.94 million in 2023. In 2024, Dividend Income declined by US\$693,817 or 18%, totalling US\$3.24 million, due to lower dividends declared by several major holdings. The top contributors to dividend income in 2024 were Supreme Ventures Limited, Jamaica Broilers Group Limited, Dolla Financial Services Limited, GraceKennedy Limited, and Blue Power Group Limited.

Total Operating Expenses

10.7 Total Operating Expenses increased by 29% from US\$1.07 million in 2020 to US\$1.38 million in 2024. However, the period was marked by fluctuations, with notable increases and subsequent declines. Expenses rose significantly to US\$2.03 million in 2021 and peaked at US\$3.12 million in 2022, driven by higher incentive fees. This spike was followed by a sharp decline to US\$1.39 million in 2023, and in 2024, operating expenses remained relatively stable at US\$1.38 million, representing a marginal 1% decrease from the prior year. The recent moderation in expenses reflects strengthened cost control measures and reduced incentive fees paid to the investment manager.

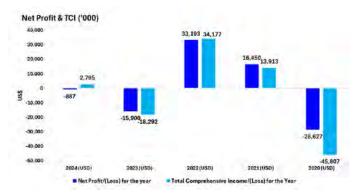

Net Profit

10.8 Over the five-year period, the Company's net profit has fluctuated significantly, from a net loss of US\$28.63 million in 2020 to a net profit of US\$33.19 million in 2022. In 2023, the Company reported a net loss of US\$15.90 million, primarily due to a US\$14.43 million unrealized loss on investments in associates. In 2024, the Company narrowed its loss significantly, reporting a net loss of US\$0.09 million, reflecting improved market conditions and portfolio performance.

Total Comprehensive Income

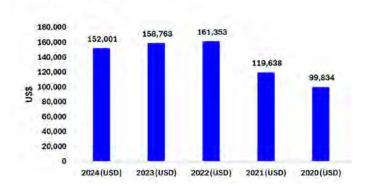

10.9 Total Comprehensive Income has also fluctuated over the five-year period, influenced by changes in fair value of investments and foreign exchange movements. From a high of US\$34.18 million in 2022, the Company recorded a comprehensive loss of US\$18.29 million in 2023. In 2024, the Company rebounded with Total Comprehensive Income of US\$2.79 million, driven by US\$4.63 million in fair value gains on FVTOCI securities and a reduction in net losses.

Total Assets

10.10 For the period under review, the Company's asset base grew from US\$99.8 million in 2020 to US\$152 million in 2024, an increase of US\$52.17 million or 52.25%. The Company's assets were valued at US\$158.8 million in 2023, representing a 4.3% decrease in 2024. The downward movement was mainly attributable to a 12% reduction in investments in associates, primarily due to the disposal of the Company's 20% stake in Caribbean Producers Jamaica Limited, tempered by a 13% increase in investment securities.

Total Assets ('000)

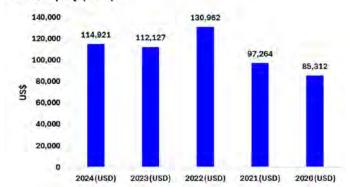

10.11 Of note, total liabilities stood at US\$37.1 million at the end of 2024, compared to US\$15.9 million for the financial year 2020, an increase of US\$21.1 million or 131.8%. This increase was largely driven by the Company's issuance of secured corporate and bond notes in 2024, totaling approximately US\$35.25 million. As at December 31, 2023, total liabilities amounted to US\$46.6 million, relative to US\$15.9 million in 2020.

Shareholders' Equity

10.12 At the end of the 2024 financial year, the Company's shareholders' equity stood at US\$114.92 million, compared to US\$85.31 million in 2020, reflecting a 35% increase over the 5-year period.

10.13 Shareholders' equity reported for 2023 was US\$112.13 million, representing a 2.5% increase in 2024. The modest recovery was primarily driven by a US\$4.2 million increase in fair value reserves, attributable to the appreciation of equities classified as FVTOCI. This was partially offset by a US\$459,046 decline in retained earnings and a US\$947,547 negative movement in the translation reserve, which stood at US\$35.6 million at the end of 2024.

Total Equity ('000)

Liquidity

10.16 As of December 31, 2024, the Company maintained a current ratio of approximately 1.28:1, reflecting a significant deterioration from 6.64:1 in 2020, but a modest improvement compared to the 0.06:1 reported at the end of 2023. The recovery in 2024 was primarily driven by an increase in cash and cash equivalents and a significant reduction in short-term obligations, following the settlement of related party balances and tighter working capital management.

Net Asset Value Per Share

10.17 The net book value per share increased by 3% to US\$0.096 (J\$14.89) as at December 31, 2024, compared to US\$0.093 (J\$14.40) for the corresponding period in 2023. The improvement was primarily driven by a US\$4.2 million increase in fair value reserves, reflecting gains in equities classified as fair value through other comprehensive income (FVTOCI). This was partially offset by a US\$459,046 decline in retained earnings. In 2023, the net book value per share had declined by 14.4%, largely due to a US\$12.5 million or 11% decrease in investments in associates, which stood at US\$106.7 million at year-end.

Cash Flows

- 10.18 The Company's operating cash flow showed significant volatility over the five-year period. After recording negative cash flows in 2020 (US\$1.22M) and 2021 (US\$6.14M), the Company experienced a modest rebound in 2022 with positive cash flow of US\$524,455, followed by a sharp improvement in 2023 to US\$15.22 million. However, in 2024, operating cash flow declined drastically to a net outflow of US\$29.78 million, driven largely by substantial related party movements and an increase in restricted deposits.
- 10.19 Investing cash flows remained heavily negative throughout the period, reflecting ongoing allocations to associates and securities. In 2024, the Company increased its investments in associates by US\$13.07 million, offsetting the impact of divesting its 20% stake in Caribbean Producers Jamaica Limited. The trend underscores the Company's focus on portfolio growth despite liquidity pressures.

10.20 Financing activities were a key source of liquidity in 2024, with the Company raising US\$34.9 million through secured bond and corporate note issuances. This helped offset a US\$6.48 million repayment of promissory notes and supported overall capital needs amid weak operating cash generation. Despite these inflows, cash and cash equivalents declined to US\$1.09 million at year-end, reflecting increased investment and operating outflows.

UNAUDITED FINANCIAL RESULTS FOR THE QUARTER ENDED MARCH 31, 2025 RELATIVE TO THE QUARTER ENDED MARCH 31, 2024.

10.21 A summary of the unaudited financial statements for the fourth quarter ended March 31, 2025, is set out at Sections 12.3 to 12.4 below. The complete unaudited Financial Results for the quarter ended March 31, 2025 is available on the Jamaica Stock Exchange at: https://www.jamstockex.com/

Net Losses

- 10.22 For the three months ended March 31, 2025, the Company's net losses amounted to US\$13.9 million compared to a loss of US\$8.2 million for the similar period in 2024. Key highlights include:
 - 10.22.1 Net unrealized losses on investments in associates at FVTPL amounted to US\$9.8 million (2024: US\$6.3 million), reflecting market-driven valuation declines
 - 10.22.2 Net unrealized losses on other financial instruments at FVTPL totaled US\$2.7 million (2024: US\$0.2 million), due to weaker fair-value movements.
 - 10.22.3 Dividend income collapsed by US\$196 thousand to US\$1,000 (2024: US\$197,000), as key investees reduced their payouts.
 - 10.22.4 Net interest expense decreased by US\$0.56 million to US\$1.03 million (2024: US\$1.59 million), reflecting lower borrowing levels and interest rates.

Operating Expenses

10.23 Total operating expenses for the quarter ended March 31, 2025, were US\$300,000, down marginally from US\$308,000 in Q1 2024, as a reduction in incentive fees was offset by slightly higher administrative costs.

Net Asset Value (NAV)

10.24 As of March 31, 2025, NAV per share stood at US\$0.0820, down 8% from US\$0.090 on March 31, 2024, driven by mark-to-market losses across the investment portfolio.

Balance Sheet

- 10.25 Total assets as of March 31, 2025, amounted to US\$133.5 million, down 14% from US\$155.2 million at March 31, 2024, primarily reflecting an US\$11.4 million decline in associate valuations and US\$7.4 million of net securities disposals.
- 10.26 Total liabilities at March 31, 2025, were US\$35.5 million, versus US\$48.3 million at March 31, 2024, as no new debt was raised during the quarter.
- 10.27 Shareholders' equity closed at US\$98.0 million (March 31, 2024: US\$106.9 million), down 8% on weaker comprehensive income for the period.

Cash Flows

10.28 For the three months ended March 31, 2025, net cash used in operating activities was US\$1.03 million, versus a US\$13.91 million outflow in Q1 2024, driven by a US\$7.74 million reduction in investment securities and a US\$0.34 million decrease in investments in associates. Financing provided US\$0.074 million (Q1 2024: US\$14.02 million), resulting in a net decrease in cash and cash equivalents of US\$0.96 million to US\$1.09 million at quarter end.

OUTLOOK FOR MJE

- 10.29 MJE projects a return to profitability in FY 2026 given the positive outlook for the Jamaican economy and the favourable market conditions, which we expect will result in improved stock market prices. We further expect improvements to our liquidity given the expected recovery in dividend income from key holdings such as SVL and NCBFG. MJE's year-to-date net loss of US\$13.9 million for Q1 2025 reflects unrealized losses due to fluctuations in the local equity market stock prices. However, MJE is a longterm investor in equities and its performance over the last 5 years has resulted in the overall growth of 52% in its asset base from US\$85.3 million to US\$114.9 million as at FY2024 and the growth in its equity base by 35% for the same period from US\$85.3 million to US\$114.9 million.
- 10.30 MJE's investment strategy is two-fold and includes long-term hold positions, as well as short-term trading activity to support our liquidity needs and take advantage of shortterm trading gain opportunities. It is for this reason that the business operates with a low level of leverage at 40% (which is embedded in its financial covenants), which means its asset base will always exceed its financial obligations by 2.5 times. This allows the Company to be able to meet its financial obligations through its short-term trading activity even when the dividend income falls below expectation as was the case in FY2024. Additionally, as it relates to the long-term hold positions, the Company is always looking for opportunities to exit where it believes those investment have matured. For example, MJE exited its position in CPJ in FY 2024, generating J\$2.5 billion in cash and those proceeds were used in part to reduce debt and strengthen liquidity. This underscores MJE's flexibility in managing its capital structure and its proactive approach to meeting debt commitments despite short-term income volatility.

Statutory Information required to be set out in the Prospectus by section 42 and the Third Schedule to the Companies Act ("the Act").

- 13.1 (a) The Company has no founders or management or deferred shares.
 - (b) The Articles of Association of the Company fix no shareholding qualification for directors and none have been otherwise fixed by the Company in general meeting. The Articles of Association contain the following provisions with respect to the remuneration of directors:
 - i. "Subject to Article 121, the remuneration of the directors shall be such amount as the board of directors, or any appropriate committee of the board of directors, may determine. Such remuneration shall be deemed to accrue day to day. The directors may also be paid all travelling, hotel and other expenses properly incurred by them in attending and returning from meetings of the directors or any committee of the directors or general meetings of the company or in connection with the business of the Company." -Article 80.
 - ii. "The shareholding qualification for directors may be fixed by the company in general meeting, and unless and until so fixed no qualification shall be required." -Article 81.
 - iii. "A director of the Company may be or become a director or other officer of, or otherwise interested in, any Company promoted by the Company or in which the Company may be interested as shareholder or otherwise, and no such director shall be accountable to the Company for any remuneration or other benefits received by him as a director or officer of, or from his interest in, such other company unless the Company otherwise directs." -Article 82.
 - iv. "A director may hold any other office or place of profit under the Company (other than the office of auditor) in conjunction with his office of director for such period and on such terms (as to remuneration and otherwise) as the directors may determine and no director or intending director shall be disqualified by his office from contracting with the Company either with regard to his tenure of any such other office or place of profit or as vendor,

- purchaser or otherwise, nor shall any such contract, or any contract or arrangement entered into by or on behalf of the Company in which any director is in any way interested, be liable to be avoided, nor shall any director so contracting or being so interested be liable to account to the Company for any profit realised by any such contract or arrangement by reason of such director holding that office or of the fiduciary relationship thereby established." -Article 92(3).
- v. "Any director may act by himself or his firm in a professional capacity for the Company, and he or his firm shall be entitled to remuneration for professional services as if he were not a director; provided that nothing herein contained shall authorise a director or his firm to act as auditor to the Company." -Article 92(5).
- "The directors may give or award pensions. annuities, gratuities and superannuation or other allowances or benefits to any persons who are or have at any time been directors of or employed by or in the service of the Company, or any company which is a subsidiary of the Company and to the wives, widows, children and other relatives and dependents of any such persons, and may set up, establish, support and maintain pension, superannuation or other funds or schemes (whether contributory or non-contributory) for the benefit of such persons as are hereinbefore referred to or any of them or any class of them. Any director shall be entitled to receive and retain for his own benefit any such pension, annuity, gratuity, allowance or other benefit, and may vote as a director in respect of the exercise of any of the powers of this Article conferred upon the directors notwithstanding that he is or may be or become interested therein." -Article 94
- vii. "A Managing Director shall receive such remuneration (whether by way of salary, commission or participation in profits, or partly in one way and partly in another) as the board of directors, or any appropriate committee of the board of directors may determine." -Article 121.

APPENDIX 2: BORROWING POWERS OF COMPANY

The Company's corporate borrowing power is derived from section 14 of the International Business Companies Act of Saint Lucia, Chap.12.14 which provides at sub-section (1) that an international business company:

"...has the power, irrespective of corporate benefit, to perform all acts necessary or conducive to the conduct, promotion or attainment of the purpose of the international business corporation."

The Company's Articles of Association then provides inter alia:

- 83. The directors may raise or borrow for the purposes of the Company such sum or sums of money as they think fit. The directors may secure the repayment of or raise any such sum or sums as aforesaid and also secure the repayment of any sum or sums due or owing by the Company or by any other person by bill of sale, mortgage or charge upon the whole or any part of the property and assets of the Company, present and future including its uncalled capital, or by issue, at such price as they may think fit, of Notes, debentures or debenture stock either charged upon the whole or any part of the property and assets of the Company or not so charged or by Notes, bills of exchange, promissory notes or in such other way as the directors may think expedient.
- 84. Any Notes debentures debenture stock or other securities issued or to be issued by the Company shall be under the control of the directors who may issue them upon such terms and conditions and in such manner and for such consideration as they shall consider to be for the benefit of the Company.
- 85. The Company may upon the issue of any debentures or other securities confer upon the creditors of the Company holding the same or any trustees or other persons acting on their behalf, a voice in the management of the Company, whether by giving them the right of attending and voting at general meetings or by empowering them to appoint one or more persons to be directors of the Company or otherwise as may be agreed.

APPENDIX 3: FORM OF BOND

[**%] MAYBERRY JAMAICAN EQUITIES JMD SECURED BONDS DUE [202*]

J\$	Issue Date:		, 2025	
Serial No:	Maturity Date:			
FOR VALUE RECEIVED, the Undersigned, Bourbon House, Bourbon Street, Castri PROMISES TO PAY to the order of JCS I	ies, Saint Lucia ("t	he Promisor") I	HEREBY UNCONDI	TIONALLY
(the " Security Trustee ") on the		day of		, 20
("the Maturity Date"), without grace, the				
Jamaican Dollars (J\$				

Date of Execution:_____

The Promisor further promises to pay interest at the rate of ____per annum ("the Agreed Rate") on the unpaid Principal Sum hereof for each day during each Interest Period until the Principal Sum is repaid in full. Accrued interest shall be payable in arrears on each Interest Payment Date. Interest at the Agreed Rate shall accrue from day to day (as well as after as before any judgment) and shall be computed based on the number of days elapsed in the Interest Period for which the calculation is being made multiplied by a daily rate based on a three hundred and sixty (360) day year. Principal, interest and other sums payable hereunder shall be payable in Jamaican currency at the office of JCSD Trustee Services Limited located at 40 Harbour Street, Kingston ("the Place of Payment").

The Promisor may at any time after the Issue Date voluntarily prepay or redeem this Note without premium or penalty by giving notice to the Noteholder and the Security Trustee that on a fixed future date (which shall fall on an Interest Payment Date and shall not be less than 30 days from the date of the notice) the Promisor shall effect prepayment or redemption (a "Notice of Pre-payment" or "Notice of Redemption" respectively) provided that in the case of a partial prepayment such prepayment shall be effected ratably across all Notes in the Series.

A Notice of Prepayment or Notice of Redemption, once given, may not be withdrawn and the amount prepaid or redeemed may not be re-borrowed under a new Bond or Bonds. Prepayment must occur *pro rata* across all Bonds in the series simultaneously. The right of prepayment may be exercised only once during the life of the Bonds.

All prepayment or redemption must be made with accrued interest up to the date of prepayment or redemption on the amount prepaid or redeemed.

This Global Bond is issued in respect of a Series of Bonds (the serial number of which is stated on the face hereof) ("the Individual Bonds") issued by the Promisor. The Promisor intends that this Global Bond shall be impressed with stamp duty in Jamaica and held by the Bondholder for enforcement in Jamaica, if deemed necessary, as trustee for the holders of the Individual Bonds. Payments of principal and interest under the Individual Bonds shall *pro tanto* reduce the Promisor's obligations under this Global Bond. This Bond is the Global Bond referred to in the Trust Deed. All such Individual Bonds shall rank *pari passu* and ratable in all respects.

All payments hereunder shall be made in same day funds or such other funds as are equivalent to same day funds. Payment of the Principal Sum and interest shall be made without set-off or counterclaim but subject to any applicable withholding tax (if any) which the Promisor is obliged to deduct by applicable law.

Upon the occurrence of an **Event of Default** (as defined below) the Noteholders may by **Ordinary Resolution** resolve that the Security Trustee shall serve a Notice of Acceleration declaring all principal and interest owing under this and other Notes in the Series to be, immediately due and payable, as provided in the Trust Deed and/or to take Enforcement Action.

The Promisor hereby irrevocably and unconditionally waives all requirements as to diligence, presentment, demand, protest, notice of dishonour and all other notices whatsoever, and agrees to pay all expenses, including reasonable attorney's fees incurred in the collection of this Note.

The failure of the holder hereof to exercise any of its rights hereunder in any particular instance shall not constitute a waiver thereof in that or any other instance.

In this Note:

"Agreed Rate" means [**]% per annum provided that during the continuance of an Event of Default the Agreed Rate shall be the aggregate of the aforesaid rate applicable at that time plus 2% per annum;

"Business Day" means any day other than a Saturday or Sunday or public holiday on which commercial banks are opened generally for business in the Corporate Area of Kingston and Saint Andrew;

"Event of Default" means the occurrence of any of the following events:

- (i) default by the Promisor in paying any sum due under this Note for a period of five (5) Business Days; or
- (ii) any representation or warranty made by the Promisor in the Trust Deed or in any Transaction Document being incorrect in any material respects when made and the Promisor either knew or ought reasonably to have known it was incorrect; or
- (iii) default by the Promisor in the performance or observance of any covenant, condition or other provision in the Trust Deed or any Transaction Document; or
- (iv) if an order is made or resolution passed for the Promisor to be wound up, except a voluntary winding-up previously approved by the Promisor; or
- (v) if an encumbrancer shall take possession of, or a receiver is appointed over, all or any part of Promisor's assets and the Security Trustee certifies that in its opinion such action is materially prejudicial to the interest of Bondholders; or
- (vi) if any distress or execution is levied against the Promisor and the Security Trustee certifies that in its opinion such action is materially prejudicial to the interest of Bondholders; or
- (vii) if the Promisor stops or threatens to stop payment of its debts or shall cease or threaten to cease to carry on the whole or substantially the whole of its business and the Security Trustee certifies that in its opinion, such event will be materially prejudicial to the interest of Bondholders; or
- (viii) if the Trust Deed or the Bond or any Transaction Document is, or becomes, or is alleged to be, unlawful or unenforceable; or
- (ix) if any Insolvency Event shall occur with respect to the Promisor; or
- (x) if final judgment is rendered against the Promisor and such judgment remains unsatisfied for a period of forty-five (45) days unless such judgment is the subject of a *bona fide* appeal.

PROVIDED THAT in respect of the events listed at (iii), (viii) and (x) above the Promisor has a cure period of fourteen (14) days after notice from the Security Trustee to remedy the breach and if such breach is not remedied within such period only then will an Event of Default occur.

"Insolvency Event" means any of the following events occurring to the Promisor; namely: (i) the filing by the Promisor of a Notice of Intention or a Proposal under the Insolvency Act; or (ii) the commencement of proceedings by the Promisor to secure a composition of its debts under a court-approved scheme of arrangement or the making of any proposal to its creditors or any of them to compromise its debts; or (iii) the making by the Promisor of an application to the Supervisor of Insolvency for an assignment for the benefit of its creditors or if a creditor of the Promisor (or the Promisor itself) shall apply to the court for a

receiving order to be made against it; or (iv) if the Promisor shall commit an act of bankruptcy under section 57 of the Insolvency Act; or (v) if a receiver (or an interim receiver) shall be appointed over the whole or any part of the assets of the Promisor;

"Interest Payment Date" means March 30, June 30, September 30 and December 30, of each year save and except that the final Interest Payment Date shall also be the Maturity Date and subject to the customary Business Day adjustment;

"Interest Period" means (i) in the case of the first Interest Period, the period commencing on the Issue Date and ending on the date immediately preceding [**]; and (ii) after the first Interest Period, each subsequent Interest Period shall commence on the Interest Payment Date in the previous Interest Period and shall end on the day immediately preceding the next Interest Payment Date EXCEPT that (a) the last Interest Period shall end on the day immediately preceding the Maturity Date; and (b) if an Interest Period would end on a day which is not a Business Day then such Interest Period shall be shortened to end on the immediately preceding Business Day which shall be the ending date for that Interest Period and the extra day(s) to the Interest Payment Date shall be added to the next Interest Period;

"Maturity Date" means the maturity date stated at the head of this Bond or the date on which a Prepayment Notice expires.

This Bond shall be governed by and construed in accordance with the laws of Jamaica and may be enforced in the Courts of Jamaica.

Independent auditors' report

To the Members of Mayberry Jamaican Equities Limited

Report on the audit of the financial statements

Our opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Mayberry Jamaican Equities Limited (the Company) as at 31 December 2024, and its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards

What we have audited

The Company's financial statements comprise:

- the statement of financial position as at 31 December 2024;
- the statement of profit or loss and other comprehensive income for the year then ended;
- the statement of changes in shareholders' equity for the year then ended,
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, comprising material accounting policy information and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Our audit approach

Audit scope

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including, among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

A full listing of the partners of PricewaterhouseCoopers East Caribbean is available upon request.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which the Company operates.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

How our audit addressed the key audit matter

Measurement of investment in associates iteler to notes 2(b), 3(a) and 8 to the financial statements for disclosures of related secounting policies and balances.

The Company's total investments in associates was US \$93.6 million as at 31 December 2024, representing holdings in certain investment securities, which range between 12% to 23% of the issued share capital and where there is board and/or board sub-committee representation.

As per the Company's accounting policies, management recognises associates as all entities over which the Company has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. As the Company is deemed to have a similar business model to an investment entity as defined by IFRS 10, the Company has elected the exemption from applying the equity method in IAS 28 for its investment in associates and recognises its investment in associates at FVTPL in accordance with IFRS 9.

We focused our audit efforts on this balance due to its material impact on the financial statements. The determination of the applicable accounting standard being IAS 28, Investment in Associated Companies and Joint Ventures, versus IFRS 9, Financial Instruments, involved a level of applied judgement by management.

We performed the following procedures, amongst others, as it pertains to investment in associates as follows:

- Performed inquiries and evaluated management's accounting policies against the requirements of the applicable accounting standards;
- Read and evaluated management's position papers on the determination of the designation of the investments as associated companies;
- Independently confirmed shareholdings of related associates with the local securities deposits registry;
- Corroborated board and subcommittee membership through inspection of published submissions to the Jamaica Stock Exchange; and
- Evaluated management's assertion that it qualifies for the exemption from equity accounting under IAS 28 paragraph 18 by assessing the following:
 - The nature of the Company's operations;
 - How the business is managed;
 - How the performance of the Company is assessed and management of the Company is remunerated; and
 - Comparing the underlying information to the types of entities that IAS 28 describes as being eligible for exemption.

Other information

Management is responsible for the other information. The other information comprises the Annual Report (but does not include the financial statements and our auditors' report thereon), which is expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not
 detecting a material misstatement resulting from fraud is higher than for one resulting from error,
 as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override
 of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting
 and, based on the audit evidence obtained, whether a material uncertainty exists related to events
 or conditions that may cast significant doubt on the Company's ability to continue as a going
 concern. If we conclude that a material uncertainty exists, we are required to draw attention in our
 auditors' report to the related disclosures in the financial statements or, if such disclosures are
 inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to
 the date of our auditors' report. However, future events or conditions may cause the Company to
 cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and
 events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditors' report is Tonya Graham.

Notes to the Financial Statements

31 December 2024

(expressed in United States dollars unless otherwise indicated)

1. Identification and Principal Activities

(a) Mayberry Jamaican Equities Limited (the Company) is a public limited liability company which is listed on the Jamaica Stock Exchange ("JSE"). It is incorporated in St. Lucia under the *International Business Companies* Act and its registered office is located at Bourbon House, Bourbon Street, Castries, St. Lucia. On January 5, 2018, the Company changed its name from Mayberry West Indies Limited to Mayberry Jamaican Equities Limited under the International Business Companies Act, Cap 12.14.

Mayberry Group Limited (MGL) is the Company's parent and owns 50.42% (2023 – 50.42%) of Mayberry Jamaican Equities Limited as at December 31, 2024.

The Company is an investment company whose objective is to achieve long term capital appreciation, while preserving capital, by investing in and trading public equity securities in Jamaica ("Jamaican equities").

(b) Reorganisation of the Mayberry Group of Companies

At an extraordinary General Meeting held on July 26, 2023, the stockholders of Mayberry Investments Limited (MIL) approved the reorganisation of the Mayberry Group of Companies under a Scheme of Arrangement which was then approved by the Supreme Court of Jamaica in September 2023 in accordance with the Jamaica Companies Act. In December 2023, the new holding company, Mayberry Group Limited (MGL) was listed on the Jamaica Stock Exchange and at the same time Mayberry Investments Limited was delisted. The existing shareholders of MIL exchanged their shares for MGL shares of equal value. In December 2023, MIL also transferred ownership of all its subsidiaries directly to MGL.

Effective December 28, 2023, Mayberry Jamaican Equities (MJE) became a 50.42% owned subsidiary of Mayberry Group Limited (MGL), through the court approved Scheme of Arrangement. Previously, MJE was owned 50.42% by Mayberry Investments Limited.

2. Material Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied for all the years presented unless otherwise stated.

(a) Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the IASB (IFRS Accounting Standards). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of investment securities at fair value through other comprehensive income ("FVTOCI"), investments in associates at fair value through profit or loss ("FVTPL") and financial assets at FVTPL. The Company has determined that it is a similar entity to an investment entity as defined in IFRS 10 and it continues to meet this definition (see note 2 (b)).

The preparation of financial statements in conformity with IFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. Although these estimates are based on management's best knowledge of current events and actions, actual results could differ from those estimates. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

(expressed in United States dollars unless otherwise indicated)

2. Material Accounting Policies (Continued)

(a) Basis of preparation (continued)

New, revised and amended standards and interpretations that became effective during the year

Certain new standards and amendments to existing standards have been published that became effective during the current financial year.

- Amendment to IAS 1 Non-current liabilities with covenants
- Amendment to IAS 7 and IFRS 7 Supplier finance

The Company has assessed the relevance of all such new standards and amendments and has concluded that they did not have any impact on the amounts recognised in the current and prior periods.

New, revised and amended standards and interpretations not yet effective and not early adopted by the Company

Certain amendments to accounting standards have been published that are not mandatory for 31 December 2024 reporting periods and have not been early adopted by the Company.

- Amendments to IAS 21 Lack of Exchangeability
- Amendment to IFRS 9 and IFRS 7 Classification and Measurement of Financial Instruments
- Annual improvements to IFRS Volume 11
- IFRS 18. 'Presentation and Disclosure in Financial Statements'
- IFRS 19, 'Subsidiaries without Public Accountability: Disclosures'

These amendments are not expected to have a material impact on the entity in future reporting periods and on foreseeable future transactions.

2. Material Accounting Policies (Continued)

(b) Investment in Associates

An entity that meets the IFRS 10 *Consolidated Financial Statements* definition of an investment entity is required to measure its investments at FVTPL in accordance with IFRS 9 *Financial Instruments*. This is because using fair value results in more relevant information than, for example, consolidation for subsidiaries or the use of the equity method for interests in associates or joint ventures. The Company has determined that its business model and operations are similar to that of an 'investment entity' as defined in IFRS 10.

An investment entity is an entity that obtains funds from one or more investors for the purpose of providing them with investment management services, commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both, and measures and evaluates the performance of substantially all of its investments on a fair value basis. The Company has met and continues to meet the substantive definition of an investment entity and is therefore considered similar to this type of entity, as its strategic objective of investing in Jamaican equities and providing investment management services to investors for the purpose of generating returns in the form of long term capital appreciation, remains unchanged. The company has no subsidiaries but has investments in associates.

The Company may from time to time seek to liquidate its positions in any of its Jamaican equities. The circumstances under which the Company may sell some or all of its investments include: (i) where the Company believes that the Jamaican equities are fully valued or that the original investment thesis has played out; or (ii) where the Company has identified other investment opportunities which it believes present more attractive risk-adjusted return opportunities and additional capital is needed to make such alternative investments.

For its Jamaican equities, the Company's exit strategies may include selling the investments through private placements, hedge funds or in public markets. While most stocks are traded daily, some anchor holdings have a 10 – 15 year horizon for the full growth potential anticipated to be realised (See note 3(a)).

Associates are all entities over which the Company has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. As the Company is deemed to have a similar business model to an investment entity as defined by IFRS 10, the Company has elected the exemption from applying the equity method in IAS 28 for its investments in associates and accounts for its investments in associates at FVTPL in accordance with IFRS 9.

The Company's associates are as follows:

	Accounting		The Company proportion of ordinary share held (%)	
Name of Entity	Year-end	Nature of Business	2024	2023
Lasco Financial Services Ltd	March 31	Money Services	21	21
Caribbean Producers (Jamaica) Limited	June 30	Food trading	-	20
Iron Rock Insurance Limited	December 31	General insurance	23	20
Supreme Ventures Limited	December 31	Betting, gaming and lottery	19	19
Dolla Financial Services Limited	December 31	Microcredit	12	10

2. Material Accounting Policies (Continued)

(c) Foreign currency translation

(i) Functional and presentation currency Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The functional currency of the Company is Jamaican dollars based on its primary operating and regulatory environment.

The financial statements are presented in United States Dollars, the Company's presentation currency in accordance with its Articles of Association.

(ii) Transactions and balances

Foreign currency transactions are accounted for at the exchange rates prevailing at the dates of the transactions. At the date of the statement of financial position, monetary assets and liabilities denominated in foreign currencies are translated using the closing exchange rate.

Exchange differences resulting from the settlement of transactions at rates different from those at the dates of the transactions, and unrealized foreign exchange differences on unsettled foreign currency monetary assets and liabilities are recognised in the statement of profit or loss and other comprehensive income.

Translation differences on non-monetary financial assets and liabilities are a component of the change in their fair value. Translation differences on non-monetary financial assets and liabilities such as equities held at FVTPL, are recognised in the statement of profit or loss as part of the fair value gain or loss. Translation differences, on non-monetary financial assets such as equities classified as FVTOCI are recognised in other comprehensive income.

(iii) Translation from functional to presentation currency

Assets and liabilities for the statement of financial position are translated into the presentation currency at the closing rate at the date of the statement of financial position. Income and expenses are translated at exchange rates at the dates of the transactions. All resulting exchange differences are recognised in other comprehensive income.

2. Material Accounting Policies (Continued)

(d) Financial assets

i. Initial recognition and measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. This includes regular way purchases of financial assets and liabilities that require delivery of assets within the time frame generally established by regulation or convention in the market place.

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value, plus or minus directly attributable transaction costs for all instruments except in the case of financial assets recorded at FVTPL. For financial instruments measured at FVTPL transaction costs are expensed in the statement of profit or loss and other comprehensive income.

ii. Classification and subsequent measurement

The Company classifies all of its financial assets based on the business model for managing the assets and the assets contractual terms. The following measurement categories are used in accordance with the requirements of IFRS 9:

- those to be measured at fair value through other comprehensive income (FVTOCI)
- · Fair value through profit or loss (FVTPL), and
- those to be measured at amortised cost.

iii. Business model assessment

IFRS 9 requires an assessment of the nature of the Company's business model at a level that best reflects how it manages portfolios of financial assets. The business model reflects how the Company manages the assets in order to generate cash flow; this is, whether the company's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g., financial assets are held for trading purposes), then the financial assets are classified as "Other" business model and measured at FVTPL.

2. Material Accounting Policies (Continued)

(e) Financial assets (continued)

iii. Business model assessment (continued)

Factors considered by the Company in determining the business model for a group of assets include:

- 1. How the asset's performance is evaluated and reported to key management personnel;
- 2. How risks are assessed and managed; and
- 3. How managers are compensated.

The Company has determined that it has two business models:

Hold-to-collect business model: This comprises cash and cash equivalents and accounts receivable. These financial assets are held to collect contractual cash flows.

Other business model: This comprises equity investments. These financial assets are managed, and their performance is evaluated on a fair value basis.

iv. Equity Instruments

Financial assets measured at FVTOCI

Where the Company has made an irrevocable election to classify equity investments at FVTOCI, they are carried at fair value with changes in fair value recognised in other comprehensive income and accumulated in the related fair value reserve. There is no subsequent reclassification of fair value gains/losses to profit or loss. Following the derecognition of the investment, these realised gains/losses are transferred to retained earnings.

Financial assets measured at FVTPL

This category comprises equity investments which are held for trading and are carried in the statement of financial position at fair value with changes in fair value recognised in profit or loss.

Dividend income

When representing a return on such equity investments, dividend income is recognised in profit or loss when the Company's right to receive payments is established.

v. Financial assets measured at amortised cost

Financial assets that are held to collect the contractual cash flows and that contain contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) are measured at amortised cost. Any gain or loss arising on derecognition is recognised directly in profit or loss together with foreign exchange gains or losses. They are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition or issue and are subsequently carried at amortised cost using the effective interest rate method less provision for impairment.

The Company's financial assets measured at amortised cost comprise cash and cash equivalents, and other receivables in the statement of financial position.

Cash and cash equivalents include cash in hand, bank balances and other short term highly liquid investments with original maturities of three months or less.

2. Material Accounting Policies (Continued)

(e) Financial assets (continued)

vi. Impairment

Expected credit losses ("ECL") are established for all financial assets, except for financial assets classified or designated as FVTPL and equity securities designated as FVTOCI, which are not subject to impairment assessment. The impact of ECLs on other financial assets is considered immaterial as this comprises primarily cash and cash equivalents and other receivables.

The Company assesses on a forward looking basis the ECL associated with its financial assets classified at amortised cost. The methodology used to determine the amount of the provision is based on whether there has been a significant increase in credit risk since initial recognition of the financial asset. For those where the credit risk has not been increased significantly since initial recognition of the financial asset, twelve month ECLs along with gross interest income are recognised. For those for which credit risk has increased significantly, lifetime ECLs along with interest income on a net basis are recognised. The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due. The Company assumes that there is no significant increase in credit risk for instruments that have a low credit risk. This assumption is used primarily for cash and cash equivalents and other receivables.

vii. Derecognition

Regular way sales of financial assets are recognised on trade date, being the date on which the Company commits to sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

(f) Financial liabilities

Financial liabilities are initially recognised at fair value, being their issue proceeds, net of transaction costs directly attributable to the issue of the instrument. Borrowings are subsequently carried at amortised cost using the effective interest rate method, which ensures that any interest expense recognised in the statement of profit or loss and other comprehensive income over the period to repayment is a constant rate on the balance of the liability carried in the statement of financial position.

The Company's financial liabilities comprise promissory note payable, accounts payable, debt security in issue and due to related companies.

The Company derecognises a financial liability when its contractual obligations are discharged, cancelled or expired.

(g) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is an unconditional and legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liabilities simultaneously.

(h) Borrowings

Borrowings are recognized initially at cost, being their issue proceeds, net of transaction costs incurred. Subsequently, borrowings are stated at amortised cost and any difference between net proceeds and the redemption value is recognized in the statement of profit or loss and other comprehensive income over the period of the borrowings using the effective yield method.

(i) Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made.

(j) Revenue recognition

Interest income is recognised in the statement of profit or loss and other comprehensive income for all interestbearing instruments on the accrual basis using the effective yield method based on the actual purchase price. Interest income includes coupons earned on fixed investments and discount or premium on financial instruments.

(k) Income taxes

Taxation expense in the statement of profit or loss and other comprehensive income comprises current and deferred tax charges.

Current tax charges are based on taxable profit for the year, which differs from the profit before tax reported because it excludes items that are taxable or deductible in other years, and items that are never taxable or deductible. The Company's liability for current tax is calculated at tax rates that have been enacted or substantively enacted at the statement of financial position date. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax is the tax expected to be paid or recovered on differences between the carrying amounts of assets and liabilities and the corresponding tax bases. Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Currently enacted or substantively enacted tax rates are used in the determination of deferred income tax.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Current and deferred tax assets and liabilities are offset when they arise from the same taxable entity and relate to the same Tax Authority and when the legal right of offset exists. Deferred tax is charged or credited in the statement of profit or loss and other comprehensive income except where it relates to items charged or credited to equity, in which case deferred tax is also accounted for in equity. The principal temporary differences arise from the revaluation of certain financial assets and tax losses carried forward

(I) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction from the proceeds, net of tax. Incremental costs directly attributable to the issue of new ordinary stock units are included in the cost of acquisition as part of the purchase consideration.

Preference share capital is classified as equity except where it is redeemable on a specific or determinable date or at the option of the shareholders and/or if dividend payments are not discretionary, in which case it is classified as a liability. Dividend payments on preference shares classified as a liability are recognized in the statement of profit or loss and other comprehensive income as interest expense.

(m) Segment reporting

The Board of directors considers the Company to have a single operating segment. The Board of Directors' asset allocation decisions are based on a single, integrated investment strategy and the Company's performance is evaluated on an overall basis which is as per the primary financial statements of the Company.

(n) Dividend distributions

Dividends are recognized as an appropriation in the Company's financial statements, in the period which the dividends are approved.

Dividends for the year that are declared after the reporting date are dealt with in the subsequent events note.

3. Critical Accounting Judgements and Estimates

(a) Critical judgements in applying the Company's accounting policy

The preparation of the financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. This note provides an overview of the areas that involve a higher degree of judgement or complexity, and major sources of estimation uncertainty that have a significant risk of resulting in a material adjustment within the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Detailed information about each of these estimates and judgements is included in the related notes together with information about the basis of calculation for each affected line item in the financial statements. In addition, this note also explains where there have been actual adjustments this year as a result of an error and changes to previous estimates:

- i. Investment Entity Business Model Management is of the view that its business model is, and always has been, similar to that of an "investment entity" as defined in IFRS 10 having consideration to the following key matters amongst other facts:
 - The Company provides investment management services to multiple investors who have invested in the Company via the JSE to take advantage of the management of a portfolio of Jamaican equities on their behalf.
 - The Company's principal objective is solely to invest in Jamaican equities for returns from capital appreciation and investment income.
 - The Company manages and evaluates performance on the Jamaican equities on a fair value basis. A
 Net Asset Value (NAV) is tracked daily and communicated to the Company's investors and potential
 investors via the JSE and the Company's website. Additionally, the Company's Investment Manager is
 compensated based on the fair value appreciation of the portfolio over time (note 9b (ii))).

The purpose and design of the Company is therefore similar to that of an investment entity per IFRS 10.

ii. Investments in associated companies

IAS 28 prescribes the accounting requirements for entities that while not controlled or jointly controlled by the reporting entity, are subject to significant influence by it and are deemed associates. The standard indicates that a holding of 20% or more of the voting power of the investee is presumed to give rise to significant influence, unless it can be clearly demonstrated that this is in fact not the case. Conversely, a holding of less than 20% of the voting power is presumed not to give rise to significant influence, unless it can be clearly demonstrated that there is in fact significant influence. The Company has five investments which meet the criteria of having influence based on management's representation on the Board of directors which places it in a position to contribute to policy formation and participate in decisions about dividends and other distributions.

3. Critical Accounting Judgements and Estimates (Continued)

(a) Critical judgements in applying the Company's accounting policy (continued)

ii. Investments in associated companies (continued)

In the previous period, the Company also had shareholdings in excess of 20% in Blue Power Limited, however the Company has never nominated a director to sit on the Board of Directors, nor any key operational committees and Management is not of the view they exercise any significant influence over this entity's activities. This entity has therefore been accounted for as a financial investment.

The Company elected to utilise the IAS 28 exemption from applying the equity method of accounting to measure its investments in associates and instead measure them at FVTPL in accordance with IFRS 9. Management is of the view that fair value measurement provides more useful information for users of the financial statements. This election is consistent with the determination by Management that the Company is an entity of similar type to an investment entity defined in IFRS 10 as discussed above.

(b) Key sources of estimation uncertainty

Fair value of financial instruments

Substantially all the Company's financial assets and some liabilities included in the Company's financial statements require measurement at, and/or disclosure of fair value. Management uses its judgment in selecting appropriate valuation techniques to determine fair value of investment securities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Market price is used to determine the fair value of a financial instrument. For financial instruments where no market price is available, the fair values presented have been estimated using present value or other estimation and valuation techniques based on market conditions existing at the end of the reporting period.

The values derived from applying these techniques are significantly affected by the underlying assumptions used concerning both the amounts and timing of future cash flows and the discount rates. The following methods and assumptions have been used:

(expressed in United States dollars unless otherwise indicated)

- 3. Critical Accounting Judgements and Estimates (Continued)
 - (b) Key sources of estimation uncertainty (continued)

Fair value of financial instruments (continued)

(i) Investment securities classified as FVTPL and FVTOCI are measured at fair value by reference to quoted market prices when available. If quoted market prices are not available, then fair values are estimated on the basis of pricing models or discounted cash flows or other recognized valuation techniques.

The fair values of liquid assets and other assets maturing within one year are assumed to approximate their carrying amount. The assumption is applied to liquid assets and short term elements of all financial assets and liabilities.

(ii) The fair values of variable rate financial instruments are assumed to approximate their carrying amounts.

The Company uses the following three level fair value hierarchy in accordance with IFRS in determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 guoted prices in active markets for identical assets or liabilities.

Level 2 other techniques for which all inputs which have a significant effect on the recorded fair value

is observable, either directly or indirectly.

Level 3 techniques which use inputs which have a significant effect on the recorded

fair value that are not based on observable market data.

Transfers of items between levels are recognised in the period they occur.

The Company measures its investment securities at fair value using level 1 inputs.

Income Taxes

There are certain transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognises liabilities for actual and anticipated tax audit issues based on estimates of whether additional taxes will be due. In determining these estimates, Management considers the merit of any tax audit issues raised, based on their interpretation of the taxation laws, and their knowledge of any precedents established by the taxation authorities. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences could materially impact the current tax and deferred tax provisions in the period in which such determination is made. The Company also recognises deferred tax assets on tax losses carried forward where it anticipates making future taxable income to offset these losses.

The St. Lucian tax authorities enacted certain tax laws in 2012 and 2019 that contain certain grandfathering provisions. Some of those changes came into effect during 2021 for the Company, while others were effective in 2022. These are discussed in note 24.

 - (ii) On February 15, 2017, the Company entered into an agreement with Mayberry Asset Managers Limited, a company incorporated in St. Lucia that is controlled by two of the Company's directors. The agreement provides for the following fees to be paid to Mayberry Asset Managers Limited as compensation for the services rendered, and expenses borne by it, calculated as follows:
 - 1. A management fee calculated as 0.50% of the net asset value; and
 - 2. An incentive fee calculated as 8.00% of the increase in the comprehensive income.

The management fee is accrued and charged quarterly in arrears. The amount charged for the year was \$715,112 (2023 - \$776,832) (note 19)

The incentive fee is accrued and charged on the last day of each calendar year with reference to the comprehensive income earned for the calendar year in question. No incentive fee is payable if the net book value per share falls below previous levels attained ('hurdle per share") until and unless those previous levels are regained and surpassed. The amount charged for the year was \$nil (2023 – \$nil) (note 19).

11. Deferred Taxation

At December 31, 2024 the Company had unused tax losses of \$1,992,573 (2023 - \$1,992,573) available for offset against future profits. No deferred taxes have been calculated as it is not considered probable that there will be taxable profits for the foreseeable future based on the Company's primary sources of revenue being external to St. Lucia.

12. Promissory Note Payable

On September 1, 2021, the Company entered into a loan facility with MIL, executed via a promissory note, amounting to \$7,953,480 (J\$1.2 billion). The note attracted interest at 12.25% (2023 – 12.25%). The loan was repaid during the year.

The note was secured by some of the Company's investments in associated companies included in note 14.

(i) On January 30, 2024, the Company completed a secured corporate notes issue amounting to \$14,086,659 (J\$2.2 billion). The notes are in two tranches and pay quarterly interest at 10.75% per annum and 11.50% per annum, and the principal is repayable at maturity between 2026 and 2027. These notes are secured by a charge over the Company's portfolio of listed equities. The shares are required to have a fair value coverage of 1.75 times the principal amount and a maintenance margin of 1.2 times.

The Company was compliant with the fair value coverage ratio but was non-compliant with the maintenance margin.

(ii) On June 26, 2024, the Company completed a secured bond issue amounting to \$21,610,216 (J\$3.375 billion). The bonds are issued in three tranches and repayable at maturity between 2025 and 2027. The fixed rate notes attract interest between 9.25% and 10.50% per annum with interest paid quarterly. The notes are secured by a charge over the Company's portfolio of listed equities.

The notes were arranged by Mayberry Investments Limited and registered with JCSD Trustee Services Limited and have the following financial covenants:

- i. Total debt to equity ratio must not exceed 40%, and;
- Carrying value of the quoted equity investments must be at least 1.50x the carrying amount of the debt security in issue.

21. Financial Ratios

(a) Earnings Per Share

Basic earnings per share is calculated by dividing the net profit/(loss) attributable to shareholders by the weighted average number of shares in issue during the year.

	2024	2023
Net loss attributable to stockholders (\$)	(886,816)	(15,899,089)
Weighted average number of ordinary shares (units)	1,201,149,291	1,201,149,291
Basic earnings per stock unit (\$)	(0.001)	(0.013)
Fully diluted earnings per stock unit (\$)	(0.001)	(0.013)

The following metrics are non - GAAP financial measures which provide additional information on the value of each share. We believe this provides useful information to investors in interpreting the Company's financial results relative to their individual investments.

(b) Net book value per stock unit

Net book value is calculated by dividing the value of the total assets less its total liabilities by the number of ordinary stock share units in issue at the end of the year.

	2024	2023
Net book value end of year (\$)	114,921,294	112,126,634
Number of ordinary shares in issue (units)	1,201,149,291	1,201,149,291
Net book value per stock unit (\$)	0.0960	0.0930

(c) Market value of ordinary stock

Market value of ordinary stock units is calculated by multiplying the closing bid price per share as quoted on the JSE converted into United States dollars by the number of ordinary stock share units in issue at the end of the year.

	2024	2023

23. Financial Risk Management

The Company is exposed through its operations to the following financial risks:

- Credit risk
- Fair value or cash flow interest rate risk
- Foreign exchange risk
- Liquidity risk, and
- Equity price risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

The Company has reviewed the objectives, policies and processes for managing the risks and the methods used to measure them in order to improve the effectiveness of its risk management strategies.

(b) Financial instruments not measured at fair value

Financial instruments not measured at fair value include cash and bank balances, other receivables, debt security in issue, promissory note payable, due to parent company, and accounts payable.

Due to their short-term nature, the carrying values of cash and bank balances, other receivables, due to parent company, and accounts payable approximate their fair value.

The fair value of debt security in issue is \$35,910,778 (2023 - \$nil) and the fair value of promissory note payable is \$nil (2023 - \$6,481,477). The fair values are based on cash flows discounted using a borrowing rate between 9.00% and 10.75% (2023 - nil), and nil (2023 - 12.25%), respectively.

(c) Financial instruments measured at fair value

All of the Company's investment securities and investments in associates that are subsequently measured at fair value are Level 1 instruments. There were no transfers between levels during the period.

(d) Financial risk factors

The Board has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies to the Company's finance function. The Board provides principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, investments of excess liquidity and the impacts of global and geo-political events.

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility. Further details regarding these policies are set out below:

Market risk

Market risk arises from the Company's use of interest-bearing, tradable and foreign currency financial instruments. It is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in interest rates (interest rate risk), foreign exchange rates (currency risk) or other market factors (other price risk).

Price risk

Price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market.

23. Financial Risk Management (Continued)

(e) Financial risk factors (continued)

Equity price risk

The Company is exposed to equity securities price risk, which arises from the securities held by the Company as part of its investment portfolio. The primary goal of the Company's investment strategy is to maximise investment returns. To manage its price risk arising from equity securities in the Company's investment portfolio, the Company uses equity diversification. The Company's investments in associates which are not characterised as financial assets are measured at FVTPL and have therefore been included in this sensitivity analysis below as they account for a material proportion of equity securities held.

The table below summaries the sensitivity of the Company's net income and other comprehensive income to a reasonable possible change in equity price movements as at December 31. The analysis is based on the assumption of a 8% (2023 – 6%) increase or a 2% (2023 – 3%) decrease in equity prices, with all other variables remaining constant.

	Net Effect on Loss after Tax	Effect on Other Comprehensive Income	Net Effect on Profit after Tax	Effect on Other Comprehensive Income	
	2024	2024 \$	2023 \$	2023 \$	
8% (2023 – 6%) increase 2% (2023 – 3%) decrease	2,035,542 (508,885)	2,451,254 (613,038)	7,570,760 (3,785,380)	1,796,525 (898,262)	

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates.

Currency risk arises from other receivables, accounts payable, due to/from related companies and cash and cash equivalents. The Company manages this risk by ensuring that the net exposure in foreign assets and liabilities are kept to an acceptable level by monitoring currency positions.

(e) Financial risk factors (continued)

Currency risk (continued)

The Company is exposed to foreign currency risk in respect of the fluctuation of the United States dollars ("USD") against the Jamaican Dollar ("JMD") as follows:

	2024 \$	2023 \$
Assets:	4.044.220	4 400 070
Cash and bank balances Due from parent company	1,041,229 1,162,674	1,108,872
Other receivable	50,667	68,278
Total assets	2,254,570	1,177,150
Liabilities		
Due to parent company		1,030,305
Total liabilities	-	1,030,305
Net position	2,254,570	146,845

The following table indicates the sensitivity of profit or loss before tax to changes in foreign exchange rates. The change in currency rate below represents Management's assessment of the possible change in foreign exchange rates. The sensitivity analysis represents outstanding foreign currency denominated balances listed above and adjusts their translation at the year-end for 1% (2023 – 4%) depreciation and a 0.25% (2023– 1%) appreciation of the USD against the JMD.

The changes below would have no impact on other components of equity.

	% Change in Currency Rate 2024	Effect on Loss before tax 31 December 2024	% Change in Currency Rate 2023	Effect on Profit before tax 31 December 2023
Currency:				
USD	-1	7,750	-4	5,874
USD	+.25	(1,937)	+1	(1,468)

Cash flow and fair value interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

Floating rate instruments expose the Company to cash flow interest rate risk, whereas fixed rate instruments expose the Company to fair value interest rate risk.

At the reporting date the Company had no material financial assets or liabilities that were subject to cash flow interest rate risk and therefore no interest rate mismatches from interest bearing assets and liabilities. There are two fixed rate debt instruments: promissory note payable and corporate debt which exposes the Company to fair value interest rate risk. The intention is to hold these instruments to maturity with prepayments where the terms facilitate.

23. Financial Risk Management (Continued)

(e) Financial risk factors (continued)

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Credit risk arises from other receivables, and cash and bank balances.

The maximum exposure to credit risk is equal to the carrying amount of other receivables, and cash and bank balances in the statement of financial position.

Cash transactions are limited to high credit quality financial institutions. The Company has policies that limit the amount of credit exposure to any one financial institution. The ECL related to other receivables is considered immaterial.

Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its payment obligations associated with its financial liabilities when they fall due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions.

Liquidity risk management process

The Company's liquidity risk management process, as carried out within the Company and monitored by the finance department includes:

- Monitoring future cash flows and liquidity on a daily basis.
- The maintenance of stable funding facilities to meet ongoing cash commitments even during periods of stress.
- Ongoing assessment of expected cash flows and the availability of high-grade collateral which could be used to secure funding if required.
- Maintaining a portfolio of highly marketable and diverse assets that can easily be liquidated as protection against any unforeseen interruption to cash flow.
- Optimising cash returns on investments.
